FISCAL NOTE ANALYSIS

STATE OF ALASKA
2016 LEGISLATIVE SESSION

BILL NO. SB 200

Analysis

This bill adds a subsection (c) to **AS 14.30.360 Curriculum**. The new section requires physical activity for students in grades K-8 and would require schools to provide a minimum of 90% of Center for Disease Control and Prevention's (CDC) recommended daily amount of physical activity for children and adolescents. The CDC recommends 60 minutes or more of daily physical activity for children over 6 years old to 17 years old. This new section will require schools to provide 54 minutes of physical activity a day. The required daily physical activity can include physical education classes as well as unstructured opportunities for physical activity such as recess. The section does provide for students with physical disabilities or medical reasons to be excused from the requirement.

This bill makes physical activity requirements uniform across the state.
