FOR AN ACT ENTITLED

1 "An Act declaring the Arctic policy of the state."

2 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

- * Section 1. The uncodified law of the State of Alaska is amended by adding a new section
 to read:
- 5 LEGISLATIVE FINDINGS AND INTENT. (a) The legislature finds that
- 6 (1) the state is what makes the United States an Arctic nation;
- 7 (2) the entirety of the state is affected by the activities and prosperity in the
- 8 Arctic region, and conversely, the Arctic region is affected by the activities and prosperity in
- 9 the other regions of the state;
- 10 (3) residents of the state, having lived and worked in the Arctic region for
- decades, have developed expert knowledge regarding a full range of activities and issues
- 12 involving the region;
- 13 (4) residents of the state recognize the risks that come with climate variability
- and emerging threats to ecosystems, as well as increased maritime activity, but are optimistic
- that the skillful application of expertise, coupled with circumpolar cooperation, will usher in a

1	new era	of	economic	and	resource	development	that	will	improve	the	quality	of	life	for
2	residents	of	the state;											

- (5) the development of the state's natural resources in an environmentally and socially responsible manner is essential to the development of the state's economy and to the well-being of the residents of the state;
- (6) respect for the indigenous peoples who have been the majority of the inhabitants of the Arctic region for thousands of years and who depend on a healthy environment to ensure their physical and spiritual well-being is critical to understanding and strengthening the Arctic region;
- (7) the United States, other nations, and international bodies, including the Arctic Council, are rapidly developing Arctic strategies and policies, and therefore it is essential that both the state and the nation communicate the reality, richness, and responsibility that comes with being in the Arctic, including communicating the need to provide safety, security, and prosperity to the region;
- (8) it is essential for the state and federal government to strengthen their collaboration on Arctic issues, including coordination when creating strategies, policies, and implementation plans related to the Arctic, as both continue to engage in international circumpolar activity;
- (9) the state should develop and maintain capacity, in the form of an official body or bodies within the executive or legislative branch, or both, to develop further strategies and policies for the Arctic region that respond to the priorities and critical needs of residents of the state.
 - (b) It is the intent of the legislature that this declaration of Arctic policy
 - (1) be implemented through statutes and regulations;
 - (2) not conflict with, subjugate, or duplicate other existing state policy;
- (3) guide future legislation derived from the implementation strategy developed by the Alaska Arctic Policy Commission;
- (4) clearly communicate the interests of residents of the state to the federal government, the governments of other nations, and other international bodies developing policies related to the Arctic.
