FISCAL NOTE ANALYSIS

STATE OF ALASKA
2015 LEGISLATIVE SESSION

Analysis

This legislation would ban smoking in enclosed areas of the Fairbanks International Airport terminal and the Ted Stevens Anchorage International Airport terminal as well as within airport fuel facilities. It also prohibits smoking in other enclosed areas in a place of employment at these airports.

Title 17 currently prohibits smoking within 50 ft of an aircraft on airport property. The international airports follow municipal codes prohibiting smoking in public buildings and displays signage and have periodic public address system announcements in the terminals.

Currently smokers are provided with a designated outside smoking area adjacent to the terminals but away from any building entrances. A smoking room equipped with ventilation is provided in the North Terminal of the Ted Stevens Anchorage International Airport for passengers that deplane and cannot leave the terminal secure area before re-boarding their through-flight (some international flights and military charters).

With the passage of this legislation, the airport will be required to discontinue the use of the North Terminal smoking room, remove current no-smoking signage and replace with new signs in highly visible locations at the terminal and numerous other state managed buildings.

Total 340 12" x 12" signs (\$25/sign)

Ted Stevens Anchorage International Airport	300 signs	\$7.5
Fairbanks International Airport	40 signs	\$1.0
Total one time cost	340 signs	\$8.5
Cost per year to replace stolen/damage/worn signs	34 signs	\$9
