## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2015 LEGISLATIVE SESSION

BILL NO. HB 41

### Analysis

Committee Substitute for House Bill 41 reinstates the licensing and logbook program, as well as reestablishes some minimum standards for sport fishing guides and sport fishing operators that were in place until December 31, 2014. Under this program the Division of Sport Fish will license all sport fishing business owners and sport fishing guides, register all vessels used in guided sport fishing trips, issue identifying decals, issue logbooks to all sport fishing businesses for the recording of specific harvest and effort data for each guided fishing trip, and record all of this information into appropriate databases. It is estimated that there will be 1,742 guides and 1,185 guide businesses that will fall under the purview of this program.

The total cost of running the current sport fishing services program in FY16 is \$382.7.

#### **Total FY16 Cost Breakdown**

Personal Services	\$312.8
Travel	\$ 5.5
Services	\$ 58.4
Commodities	\$ 6.0

**Total** **\$382.7**

Personal services includes one full-time Office Assistant I for 11 months (\$53.9), one full-time Fish and Game Program Technician for 12 months (\$69.8), one full-time Office Assistant II for 6 months (\$33.7), two full-time Office Assistants for 7 months (\$79.4), and one full-time Program Coordinator for 6 months (\$76.0).

#### **Revenue generated under the proposed fee structure:**

The licensing fee structure portion of HB 41 would begin on January 1, 2016 (\$100 for Guides only and \$200 for Sport Fish Business or Sport Fish Owner and Guide) and generate approximately \$411.2 in annual revenue which would slightly exceed support for the current program costs. Expenditures are calculated on a fiscal year basis and fees are charged on a calendar year basis with expected revenues to be collected across the two fiscal years, 88% January through June and 12% July through December.

This bill analysis shows the cost of the program under the current logbook program and does not reflect costs once the electronic logbook program is implemented. When the electronic logbook program is implemented we anticipate some level of savings, but at this time we are unable to quantify those savings.

It is anticipated that the regulations relating to the implementation of this program should be in effect by March 31, 2016.
