Delete all material and insert:

"(15) "emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, that a prudent person who possesses an average knowledge of health and medicine could reasonably expect that the absence of immediate medical attention would result in serious impairment of bodily functions, serious dysfunction of a bodily organ or part, or would place the person's health or, with respect to a pregnant woman, the health of the woman or her unborn child, in serious jeopardy."

L -1-
