

# The Health and Economic Benefits of Making Alaska Smoke-Free

*Making all Alaska workplaces, restaurants, and bars 100% smoke-free would prevent about 1,900 youth from becoming smokers, and within five years, save an estimated \$5.04 million in lung cancer, heart attack, and stroke costs.*

**According to the Surgeon General, the science is clear: There is no safe level of exposure to second-hand smoke.** Just as tobacco smoke causes lung cancer, heart attacks, strokes, and other preventable diseases in smokers, secondhand smoke causes disease and death in non-smokers, as well. Smoke-free laws not only decrease exposure to tobacco smoke and the resulting disease and death, they also decrease the number of youth who start smoking, increase the number of smokers who quit, and cut health care costs for smokers and non-smokers alike.

Alaska is one of only 15 states that currently has no law prohibiting smoking in all workplaces or restaurants or bars. Making all workplaces, restaurants, and bars in the state 100% smoke-free is the **only** way to protect all Alaska residents from the dangers of secondhand smoke.

## SAVING LIVES

Making all Alaska workplaces, restaurants, and bars 100% smoke-free would be expected to provide the following reductions in the number of smokers and the number of deaths caused by smoking or exposure to tobacco smoke:\*

Adults Who Would Quit Smoking	Youth Who Would Never Start Smoking	Reduction in Smoking-Related Deaths	Reduction in Deaths of Non-Smokers
4,500	1,900	2,800	300

## SAVING MONEY

In addition to saving lives, making Alaska smoke-free would cut health care costs for both smokers and non-smokers. Over five years, a comprehensive smoke-free law covering all Alaska workplaces, restaurants, and bars would be expected to produce the following economic benefits:\*

Lung Cancer Treatment Savings	Heart Attack and Stroke Treatment Savings	State's Medicaid Program Savings	Smoking-Related Pregnancy Treatment Savings
\$1.35M	\$3.69M	\$520,000	\$980,000

\*Estimates are based on analysis performed on behalf of the American Cancer Society Cancer Action Network. Totals in charts have been rounded.

## Alaska Smoke-Free Indoor Workplaces

Only half of Alaska's population is covered by a current smoke-free workplace law. A statewide smoke-free indoor workplaces law would update existing Alaska state law to provide comprehensive protection from secondhand smoke for employees and customers in all enclosed workplaces and places of public accommodation.

This law would prohibit smoking in all indoor workplaces, businesses and public spaces. It would require that those who choose to smoke "take it outside" in order to better protect the health and safety of all workers, patrons and visitors from the disease and premature death caused by secondhand smoke. No one should have to choose between their health and a good job. Due to limitations in local authority, it is time for a statewide law.

A statewide law would create a standard with regard to secondhand smoke that puts all businesses and workplaces across Alaska on a level playing field.

**Everyone has the right to breathe smoke-free air.**

### Smoke-Free Laws Save Lives

There is conclusive scientific evidence that secondhand smoke causes heart disease.

- Studies of at least 10 communities published in peer-reviewed journals have proven a decrease in heart attack incidence after the implementation of smoke-free laws.<sup>2</sup>
- Helena, MT enjoyed a 40% decrease in heart attacks among Helena residents while smoke-free laws were in place.<sup>2</sup>
- Heart attack hospitalizations fell by 41% in Pueblo, CO after a comprehensive smoke-free law was enacted. This decrease was sustained over a three-year-period.<sup>2</sup>

### Anchorage Experiences

#### Smoke-Free Laws Benefit Businesses

Using employment data on Anchorage bars from 2001 to 2010, a report commissioned by the Alaska Department of Health and Social Services Tobacco Prevention and Control Program (2011) found:

Bar employment within the Municipality was 10% higher than it would have been if the smoke-free law had not been implemented.

The Institute of Social and Economic Research interviewed representatives of 50 full-service restaurants and bars in Anchorage on their perceptions of the impact of the smoke free indoor ordinance.

- 76% of restaurant and bars reported very positive or somewhat positive feedback from customers and employees.
- A total of 96% (48/50) of surveyed full-service restaurant and bar representatives identified at least one benefit from the passage of the smoke-free ordinances in Anchorage.
- Most respondents identified a cleaner environment, increased customer and employee satisfaction, improved employee health, more new customers, and lower maintenance costs as benefits of a smoke-free Anchorage.

## Alaskans strongly support smoke-free indoor workplaces.

- 4 in 5 Alaska adults support smoke-free workplaces.<sup>4</sup>
- Support for smoke-free indoor workplaces includes a strong majority of current smokers (59%) as well as former smokers (80%).<sup>4</sup>
- Alaskan support for smoke-free indoor workplaces is high throughout all regions of the state, ranging from 75% to 84%.<sup>4</sup>

## The Need for Legislation

- Secondhand smoke is a major cause of needless, preventable death, causing or worsening a wide range of adverse health effects, including lung cancer, heart disease, respiratory infections, and asthma. Most significantly, it has been shown that even brief exposure can be dangerous.<sup>1</sup>
- Non-smokers exposed to secondhand smoke increase their risk of heart disease and lung cancer by up to 30 percent.<sup>1</sup>
- The U.S. Surgeon General's Report, "The Health Consequences of Involuntary Exposure to Tobacco Smoke," (2006) concluded that there is no risk-free level of exposure to secondhand smoke; ventilation and other air cleaning technologies cannot eliminate exposure of nonsmokers to secondhand smoke; and that comprehensive smoke-free workplace policies are the only effective way to eliminate secondhand smoke exposure in the workplace<sup>1</sup>
- Published research in communities before and after adoption of comprehensive smoke-free workplace laws has documented a significant decline in heart disease-related hospital admissions.<sup>2</sup>

Green = Comprehensive smoke-free workplaces ordinances in place

Yellow = Sitka has an exemption for bars in stand-alone buildings, but all other workplaces are covered

Orange = Boroughs without the authority to pass smoke-free workplace ordinances on the local level due to lack of health powers

Gray = Legal analysis not conducted, but likely in the same category as the orange-shaded boroughs with inadequate health powers to enact smoke-free

# ALASKA SMOKE-FREE WORKPLACES

EVERYONE HAS THE RIGHT TO BREATHE SMOKE-FREE AIR.

## Resolutions of Support for a Statewide Smoke-Free Workplace Law

This is a list of well over 800 Alaska businesses and organizations who have signed a resolution in support of a statewide smoke-free indoor workplace law.

They come from businesses and organizations large and small, representing nearly every industry in Alaska. They cross all community and cultural lines. Broken out regionally, you will find they are also representative of every corner of The Great Land. From north to south, east to west, it's time for Alaska to have smoke-free workplaces!
