incurred before January 1, 2011, that are otherwise available under [AS 38.05.180(i),] AS 41.09.010, AS 43.55.024, or 43.55.025 and allocated to gas subject to the limitations in (j), (k), and (o) of this section are accounted for as though the credits had been applied first against a tax liability calculated without regard to the limitations under (j), (k), and (o) of this section so as to reduce the tax liability to the maximum amount provided for under (j) or (o) of this section for the production of gas or (k) of this section for the production of oil. The regulation must provide for a reasonable method to allocate tax credits to gas subject to (j) and (o) of this section. Only the amount of a tax credit remaining after the accounting provided for under this subsection may be used for a later calendar year, transferred to another person, or applied against a tax levied on the production of oil or gas not subject to (j), (k), or (o) of this section to the extent otherwise allowed.

(B) submits to the Department of Natural Resources all data that would be required to be submitted under AS 43.55.025(f)(2);
