

Legislative Task Force on Civics Education

November 22, 2016

Civics Education in Schools Retired Justice Sandra Day O'Connor testified on her efforts to educate young people in civics through her iCivics organization. Some of the other issues she addressed were state election of judges, public confidence in the judiciary, and cameras in the Supreme Court. When asked by Senator Leahy about displeasure among conservatives on Chief Justice Roberts' decision to uphold the health care law, she said the criticism was “unfortunate” and demonstrates citizens' “lack of understanding” about the judiciary.
