FISCAL NOTE ANALYSIS

STATE OF ALASKA
2015 LEGISLATIVE SESSION

BILL NO. HB 122

Analysis

HB122 will change the required biennial report and fees from a two-year reporting period to a four-year status reporting period, for cooperative corporations, non-profit corporations, religious corporations, limited liability companies, limited liability partnerships, business and professional corporations.

In addition, HB122 will change the report fees for domestic business and professional corporations, foreign business corporations, and increase the cost of creating an entity. A regulation change will be required to change the reporting fees for the following entity types: cooperative corporations; non-profit corporations; religious corporations; limited liability companies; and limited liability partnerships.

If the bill passes the following expenses will be incurred:

Services: \$2.5 (one-time legal cost to amend regulations)
\$2.4 (one-time advertising regulations)
\$8.1 (one-time supplies)
\$29.9 (one-time regulations mailing to 61,000 licensees)
\$29.9 (one-time educational mailing to 61,000 licensees)

Corporation licensing fees at CBPL are funded by General Fund/Program Receipts fund source 1005 GF/Prgm (DGF). Corporation fees are set per Title 10; revenue in excess of authorized budgeted expenses revert to the State of Alaska general fund.

Changing the reporting period from a two-year reporting cycle to a four-year reporting cycle and fees will create a fluctuating filing cycle of years with a high number of filings and years with a low number of filings. This results in zero revenue in the first two years, and thereafter creates an inconsistent revenue cycle. After accounting for program expenses, required reporting funds are deposited in the state general fund (AS 10.06.858).
