

Please vote **YES on SB89** to protect Alaska's children.

SB89 **does not** eliminate sex education from schools. It protects students from abortion providers soft marketing their services through brand awareness to generate clientele and potential revenue.

Is SB89 necessary? **Yes!** Here is our personal story:

Last year (2013-14), Sitka School District accepted Planned Parenthood's (PP) "generous" proposal to come in during class time to run PP's sex education program to children ages 11-14. By agreeing to this, an abortion provider gained open access to our kids during class time. Parents were not happy, especially with the unscripted portion of the presentation. Sitka School District eliminated Planned Parenthood's program and resumed the school's historically successful sex education program. **Also, during their short time in our school's classrooms, Planned Parenthood acquired participating kids' email addresses for their database.** Our previous Superintendent was not aware of this and determined that PP's actions were inappropriate.

Abortion providers in our schools create a CONFLICT OF INTEREST. You would be giving a business the ability to solely influence generations of impressionable future clients.

The lack of Planned Parenthood or other abortion providers in schools does *not* equal the lack of sex education in schools. That is a blatant lie. **Sitka School District has had teacher staff successfully provide sex education for years.**

Alaska has a seatbelt law because we know people are safest buckled up. We legislate safety. SB89 legislates safety for students. **Please *require* this protection from outside interests by codifying it as law.**

What if you vote no, or simply aren't concerned enough to vote yes? You will leave Alaska's children vulnerable.

As parents, we are strongly opposed to allowing Planned Parenthood or any other abortion provider access to our children via the school system. **Please vote YES on SB 89 for the best interests of Alaskan children.**

Thank you,

Yvonne & Jayson Christner
Parents, Sitka School District

Subject: SB89 AACC

I urge support for SB89 AACC. There are many of us who are watching this bill closely and who are wholeheartedly in support of it. We are busy teaching our children and do not have the time or resources that Planned Parenthood has. Our lack of public testimony at the hearings does not necessarily mean that there is lack of support.

The inherent rights of parents to direct their children is something you are sworn to protect. Please keep that in mind when considering this bill.

Sincerely,
Bonnie Cameron

Senator Stoltze,

I urge you to vote yes on SB 89. I am a parent of 8, and it deeply concerns me that abortion providers can give materials to my children. Parents need to be allowed to be parents, and have a say in this matter.

Thank you for hearing my concern.

Appreciatively,

Dear Senator,

Thank you for your hard work of supporting us in Alaska. I am writing in support of SB 89 Parental Rights Bill. I strongly encourage you to respect and stand up for our rights as parents. I don't understand how this can even be questioned... whether parents have a right or not in the decisions involving our children. I do not trust the Sitka School Districts decisions lately. One example is allowing Planned Parenthood into our schools offering sexual ed and their modern views of 'taking care of pregnancy'. We have expressed our concerns regarding issues in the schools and they seem to have turned a deaf ear toward us. Again, I urge you to please support SB 89. Thank you.

Sincerely,
Clara Gray

Dear Senator Stoltze,

Alaska Right to Life stands in support of SB89, and particularly for the amendment 2 which would ban Planned Parenthood and other abortion providers from marketing abortion to Alaska's public school students. We urge you to pass SB89 out of the State Affairs Committee tomorrow.

Below is a link to a short video from American Life League outlining what Planned Parenthood's "sex-ed" really looks like. If you can, please make this video part of the dialogue by showing it during the committee hearing.

Subject: Support of SB 89

Dear Senators,

I'm writing asking you to support SB 89. This bill supports parental rights which has been respected by our local school district in the past, however, over the past year our children's right to privacy has been threatened. As an example, Sitka School District collected our children's email addresses and submitted them to Planned Parenthood. Planned Parenthood's main goal is to enter our schools and influence our children with their propaganda on abortion. This is a money making scheme for themselves, and has nothing to do with health education as they say. This is a conflict of interest to say the least.

Please support SB 89 and do not let Planned Parenthood influence our children with biased information and respect our parental rights.

Sincerely,

Laurie Johnson

Dear Senator Stoltze,

We are writing to ask you to please support Senate Bill 89. This is an important Bill for Alaska parents and our rights to have a say in our children's education.

Not only do we want to be allowed in deciding what our children are taught, but also what outside interests come in to teach in our classrooms. This is not just about Planned Parenthood - we would also be expressing our support for SB 89 no matter what outside organization was demanding time to teach our children.

Thank you very much for your consideration and your hard work and time on the behalf of all Alaska citizens!

To: gov.alllegislators@alaska.gov
Subject: SB89

Good Morning,

I'd like to encourage you to support SB89. As a parent and a teacher in Alaska I am very concerned about the direction education is taking across the nation. SB89 is not just about recognizing a parent's rights in the education choices of their children, it is also important to a state's rights to make decision regarding education for the state, district, and individual school. More and more the federal department of education has been able to direct what happens in our schools. SB89 is an important step toward asserting state sovereignty and personal liberty. Recognizing a parent's right to make choices in the best interest of their children is vital for parents that are actively involved with their child's education and may help to involve more parents in the schools as well. This is one of the most important bills to many families across Alaska this session. More than any other issue, the future of our state rests heavily on the decisions we make regarding education of our future generations. I urge you to support SB89.

Thank you for your service to our state,

Subject: SB89

Dear Elected Officials,

I am writing to you today to voice my concern over SB89 and Amendment 2.

Amendment 2 would remove abortion providers from being eligible to be presenters in schools. Currently, across the country, Planned Parenthood is actively involved in sex education in public schools. SB89 with amendment 2 would make abortion providers (a.k.a. Planned Parenthood) ineligible to teach in Alaskan schools.

PP is lobbying hard against SB89, claiming it would end sex education in schools, which is patently false. Complete health class will go on; PP is not the gatekeeper of all sex education knowledge. Teachers & schools will still be able to teach it just as they did before PP was permitted into the classroom.

Allowing PP unfettered access to our classrooms and students is unequivocally imbalanced and unacceptable. Please remember you represent the people and we are saying NO to Planned Parenthood. Amendment 2 would remove a big business with a huge agenda from a classroom setting where young, impressionable minds can be easily swayed though not always rationally and logically. Please protect our kids and their right to choose without the bias of a company who makes their money from one option, the termination of pregnancies.

Thank you for your time,
Robin Ross

To whom it may concern, (and I hope it concerns all of you)

My husband and I are totally in favor of parental rights as laid out in SB89. We are equally opposed to Planned Parenthood having access to students in school. Of course, if you are willing to let my church do classes with the students, giving them equal time and opportunity as you would Planned Parenthood, then we could reconsider. On second thought, no, not even then.

Sincerely,
Steve and Joanne Daniels
Ninilchik, AK

April 14, 2015

Hello. Thank you for the opportunity to testify.

My name is Susan Jensen, from Sitka, Alaska. ^{I represent my self.} I am here to testify **in favor** of Senate Bill 89 for several reasons:

- As a former public school teacher, I know the privilege of teaching other people's children, and I also strongly respect the right of parents to determine what is best for their children.

- As a parent, I know that parents are legally responsible for their children and should therefore have the final say over what their children participate in, and what they are taught. Ultimately, it is the parents who are responsible for their children, not the school district or teachers. Parents should have the right to withdraw their students from any testing or course curriculum that they deem inappropriate.

- As a former business owner, it baffles me why abortion providers are allowed access to public school students. Planned Parenthood and other similar organizations are welcomed into the schools, but they do more than educate—they also provide abortions. This is clever marketing, silently endorsed by school districts, and allows abortion providers to make money from the students.

Former abortion clinic director, Carol Everett, has stated that "We had a whole plan that sold abortions and it was called sex education; break down their natural modesty, separate them from their parents and their values and become the sex expert in their lives so they turn to us...Who does she call when she gets pregnant? She calls us. We're the experts."

<https://www.bing.com/videos/search?q=carol+everett+blood+money+youtube&FORM=VIRE9#view=detail&mid=BA8500B360B5174898ADBA8500B360B5174898AD>

Abby Johnson, a woman who began work at Planned Parenthood as a way to help young women, resigned her position as clinic manager because she was surprised to learn that "Planned Parenthood's primary motive was financial; to provide abortions was very lucrative for them."

<https://www.youtube.com/watch?v=igS0AoGMzQw>

As a former business owner I ask: Are we going to invite car dealers into the schools to provide drivers education? Some would describe that as a conflict of interest.

- As someone who has worked for and been on the board of directors of several non-profit organizations, it strikes me as strange that a controversial non-profit organization such as Planned Parenthood is allowed in the schools. Will Alaska's school districts also eagerly welcome the National Rifle Association?

Please also see my written testimony.

PLEASE vote in favor of SB 89. Thank you.

Susan Jensen
