FISCAL NOTE ANALYSIS

STATE OF ALASKA 2017 LEGISLATIVE SESSION

Analysis

This legislation would modify how dividends are calculated and funded. The annual Permanent Fund Dividend to eligible Alaskans would be funded by appropriation from the General Fund, instead of by appropriation from the Earnings Reserve. Therefore, a portion of the additional General Fund revenue would be used to pay annual dividends. The appropriation for dividends would be based on a combination of 20% of the transfer from the Permanent Fund to the General Fund, plus 20% of the value of mineral royalties received during the year. Over the time horizon of this fiscal note, the expected appropriation for dividends under the stated assumptions would range from \$706 million to \$844 million annually.
