CRC beds are a cost-effective avenue for providing correctional services and supervision to offenders who are preparing to re-enter back into the community.

They allow more expensive 'hard beds' in correctional facilities to be used for high-risk and violent offenders.

## Additional CRC benefits include:

- Providing housing and a level of supervision in a safe environment while the offender obtains employment prior to being released into the community
- Access to community resources such as treatment and job services which may not be available within the institutions
- Allows a stable environment from which to establish or re-establish family and community support

6

## CRC Programs:

- Community Work Service
- Moral Reconciliation Therapy (MRT) (cognitive-behavioral program)
- Community-Based Substance Abuse Treatment (including After care)
- Employment Assistance
- Sex Offender Management (Tundra Center)
