Location

Su Knik Mitigation Bank South Central

Mission and Purpose

The purpose of the proposed Su Knik Mitigation Bank is to provide additional mitigation opportunities to project sponsors to offset impacts to waters of the United States.

Utilization of the bank would offer an alternative to on-site, in-kind compensatory mitigation. The bank is practicable or capable of compensating for impacts lost as a result of a permitted activity. Credits from the restoration (re-establishment - rehabilitation, (creation), enhancement and/or in certain cases aquatic resources for the purpose of offsetting impacts which remain after all appropriate avoidance and minimization has been achieved. The Su Knik Mitigation Bank would offset authorized wetland impacts through preservation of approximately
