## FISCAL NOTE ANALYSIS

## STATE OF ALASKA 2017 LEGISLATIVE SESSION

BILL NO. HB 127

## **Analysis**

The proposed legislation will eliminate the requirements set forth in regulation, 15 AAC 23.183(b)(1)(2)(3) that directly address the reversal or vacating of a disqualifying conviction for which an individual was incarcerated or sentenced, and therefore were denied a dividend.
The major program criteria changes in the proposed legislation include the following; removes the requirement that an annual dividend application be submitted to within the dividend year, expands the timeframe in which the individual must communicate with the Division and submit and application after a dismissed conviction, and reduces the annual dividend amount by including an estimated amount necessary to pay prior year dividends from the current year for individuals that may be dismissed from a conviction.
Estimating an amount to include in the annual calculation may be overstated for the first three to four years, until the division has a historical average to base the calculated amount upon. The first year estimate may be a calculation derived by analyzing prior appeals received in relation to dismissed convictions, along with statistics collected from Department of Corrections.
