WRITTEN TESTIMONY

NAME: Christal Schoenrock  
REPRESENTING: Self  
BILL # or SUBJECT: HB 60  
COMMITTEE: HTRA DATE: 2-7-17

With the slope lay offs & cut in wages, my business is down 25 to 30%. Before a raise in gas & oil tax - lets see some lay offs in the state employees or a least have them work part time. Not only get you work done in 90 days or loose your per diem. also pay for your own trips back & forth to home & whatever.

This increase will harm a lot of us. The trucking industry, Delta cargo & whoever, will not be hurt but we, the rest of Alaska will suffer because the expense will be ~~part~~ ~~to~~ us passed on to us. Stop spending & you can cut your wages & tighten your belts it ~~Walter~~ Walker can take a cut in his salary then so can you. You all can stop taking a raise. Some of us can't afford medical insurance & do not want to take from the state. So we the people, are the ones who has to pay, pay & pay. Please table this HB 60 bill until you have tried other things to make it right by the people, for the people.
