**Subject:** vaping is not smoke

vape is not smoke. I myself have quit smoking due to vaping, my health has improved since I quit smoking. I have been a smoker since the age of 12 in the 12 years I smoked I thought I could never quit I tried the patches , the gum , and cold turkey. It never stuck . now that I vape I have been smoke-free for two years. the research has been proven that vaping is 95% safer than smoking please take vaping out of the SB63.
