FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

BILL NO. SB 64

Analysis

The bill may result in the Department of Natural Resources (DNR) being a holder of an Environmental Covenant (EC) on DNR managed state public domain lands in order to allow Department of Environmental Conservation (DEC) to close environmentally contaminated sites on these lands. If and when ECs are placed on DNR-managed state public domain lands, they will have to be monitored and enforced.

Ultimately these costs for review and coordination will be based on how many ECs are initiated, the scope and complexity of each EC, the time or resources that these ECs may require, and the degree to which this cost can be recovered from responsible third parties. While these costs are unknown, it is expected that they can be absorbed in the Department's operating budget without fiscal impact. Therefore a zero fiscal note is submitted.
