Offered by Senator Dunleavy												
This allocation is identified by DOA as funding "training, educational conferences, agency memberships, and employee tuition." FY16 actual usage was \$27.4 of \$50.0 appropriated. This reduction aligns FY16 actual with FY18 budgeted, and represents the difference between those two figures.

Federal regulations enacted in July 2015 require the Division of Motor Vehicles (DMV) to audit Commercial Driver's License (CDL) examiners and trainers every two years. To meet this new regulation, DMV applied for the competitive Federal Motor Carrier Safety Administration (FMCSA) grant in April 2016 and was awarded a three-year grant totaling \$1,434.6 in September 2016. This amendment provides FY2018 funding based on an FY2017 supplemental item of \$301.5.

Federal authority is needed in order to receive and expend this new federal grant. The DMV's proposed FY2018 budget does not contain any federal receipt authority.

Over the three-year federal grant period, the DMV will develop a program to insure the State of Alaska addresses existing FMCSA program findings of on-site inspections of all third-party testers/examiners, create strategies for correcting the findings, and implement sustainable business practices to maintain federal regulation compliance. This begins with the purchasing of a Commercial Skills Test Information Management System (CSTIMS) to be used to track compliance and progress of the program. This is a yearly software licensing fee of \$36.0 effective in FY2018. Existing staff will make any necessary programming changes or updates and will maintain the database to assure compliance and compatibility with the CDL Information System Modernization program. Additionally, the DMV will hire two nonpermanent positions, an Administrative Assistant II, range 14, located in Anchorage, and a Training Specialist I, range 16, located in Anchorage, for the length of the federal grant responsible for populating the CSTIMS with CDL provider and employee information to track compliance and produce progress reports.

The new federal regulations require the DMV to audit CDL examiners and trainers every two years. There are 90 state and third-party CDL testing facilities

located throughout Alaska, and approximately 80 percent are located on the road system. The DMV will lease one used vehicle from the state equipment fleet to achieve compliance and facilitate timely on-site inspections at these facilities. On-site inspections will be performed by existing DMV staff.

Currently, the DMV has audited 25 percent of testers using a highly-manual process. This federal grant allows the DMV to develop a lasting, efficient program that will train staff, and track the facilities and trainers' progress. Once the program is implemented, DMV anticipates minimal ongoing costs that will be supported with current resources.

Without this federal grant, the DMV may be unable to adequately address the findings in the CDL program and perform federally-mandated auditing. As such, the division may be cited with a finding for non-compliance.

The following PCNs are added:

Nonpermanent Administrative Assistant II (02-#018), range 14, located in Anchorage

Nonpermanent Training Specialist I (02-#019), range 16, located in Anchorage

Offered by Representatives: Tilton, Wilson

It is the intent of the legislature that the Division of Motor Vehicles outsource administrative and licensing services to private sector business partners to the extent practicable. The Division has reported that during FY16 and FY17 private sector business partners have processed 15% of the total transactions and collected 17% of the revenue for the division. As a result DMV is looking at
