FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

BILL NO. HB 111

Analysis

This bill would require the department to analyze lease expenditures that could qualify to be carried forward and determine if those expenditures meet the requirements set out in regulations yet to be written. Because the regulations are not yet written, the extent of the required analysis is not clear. As written the fiscal impact to the department could range from minimal to significant, depending on final regulations.

This bill also requires the department to manage additional data associated with a new “dry hole credit.” It is indeterminable how many of these credit applications would be filed, but additional staff time would be required to review applications and manage the data.

Finally, this bill contemplates the use of staff resources to participate in a legislative working group. This additional work would require backfilling of other assignments by those employees. For the reasons stated above, the department is unable to determine the fiscal impact of this legislation at this time; therefore, a indeterminate fiscal note is submitted.
