Districts will need to include categories of administrative employees and the ratio of the employees in each category compared to the number of students in the district.

- Subsection (d) requires that if two school districts enter into a cooperative grant, one must be a rural district.
- Subsection (e) establishes that if a cooperative grant is used for health insurance pooling with the State, the grant can only be used to pay for the costs of transferring district employees to the State insurance plan.
- Subsection (f) allows a school district to carry forward the savings realized during the first three years after a grant is awarded. The savings will not be counted towards the fund balance limit established in AS 14.17.505(a).
- Subsection (g) defines “rural school district” as a regional educational attendance area or a small municipal school district defined in AS 14.11.025(c) as a district with less than 300 Average Daily Membership (ADM) and a district full value per ADM less than \$500,000.

Section 10 (Page 5): Amends AS 14.17.450(a) to provide an exception to the School Size Adjustment (SSA) for schools that meet the qualifications in (g) of this section (Section 11).

Section 16 (Pages 7-9): Creates a new section under AS 14.30 titled Virtual education consortium which also creates a new article titled Article 15. Virtual Education. The subsections that AS 14.30.760 consists of are:

- Subsection (a) establishes the virtual education consortium under DEED. The consortium will have a database of virtual education courses available to all districts for students in grades 6-12. The consortium will also provide training for teachers instructing in virtual settings and professional development for all teachers in the state. A school district or third-party vendor may offer courses on the database if it is approved by DEED.

- Subsection (b) will require DEED to review each course to ensure it meets state standards and is appropriate for students in grades 6-12. This subsection also requires that each course has the following information: the title, subject, and description of the course, the district providing the course, method of virtual education delivery, and samples of the course curriculum and teacher instruction provided in the course.
- Subsection (c) requires the consortium to provide training for teachers before they are allowed to teach a course that is included in the database. A waiver may be granted if the consortium finds that the teacher has the experience and skills necessary to teach in a virtual setting.
- Subsection (d) requires that the consortium provide professional development courses for all teachers in the state. Any district that has adequate broadband access to participate in the trainings shall require its teachers to participate in any necessary trainings. The consortium may also require participating districts to adopt the same in-service days for training.
- Subsection (e) sets a fee structure for students that take a course offered virtually by a school district that is not the student's home district. The student's district shall calculate the fee by multiplying the base student allocation by the proportion of classes that the student is taking in the district offering the virtual course. The student's district shall pay this fee to the district offering the course.
- In subsection (f), the consortium is allowed to charge a fee to any school district that offers a course in the database under (b) of this section. DEED will be able to set the fee in regulation and can adjust it as necessary annually. The fees must be set in such a manner that by June 30, 2020, the fees paid by districts will approximately equal any administrative costs of the consortium.
- Subsection (g) allows the consortium to require districts that provide courses or have students taking courses through the consortium to adopt a shared calendar and a shared bell schedule for at least a portion of the school day.
- Subsection (h) creates definitions for the terms: "asynchronous", "base student allocation", "blended", "host district", "synchronous", and "virtual education" or "virtual instruction".

This section also repeals AS 23.10.065(b) and (c) which requires an employer to pay a public school bus driver at a rate two times the Alaska minimum wage, and which allows for wage adjustments to only occur when a contract begins or is renewed.

Section 24 (Page 14): Repeals AS 37.14.110(c) which sets how the commissioner of DOR will calculate the net income of the Public School Trust Fund and AS 37.14.140 which requires that net income from the fund only go towards funding public education.

The commissioner of DEED shall notify the Lieutenant Governor and the revisor of statutes when the final judgement has been entered.
