Subject: Obamacare Abortifacient Mandate – HB 25 and SB 53

I have no problem with people wanting an abortion. That is their choice. I don't think that this should be mandated. I don't think that taxpayers should have to pay for it either.

Please vote NO on HB25/SB53. Thank you for listening.

Subject: HB 25

Hello Representative Claman,

It was nice to run into you, if even for a few seconds, a few weeks ago in Juneau. We said "hello" to each other on the stairwell. You were heading one direction and I another. Busy times there.

I've reviewed HB 25. The bill's "short" title doesn't mention abortion medicine, but it clearly includes it. The summary title only says "contraceptives". A bit misleading. By sponsoring the bill are you implying the majority of your constituents approve of abortion? For what its worth, I don't. I don't remember being asked by your office or in the polls you occasionally send out what I thought of the bill. Can you help me understand why you wouldn't ask your constituents about a bill you sponsor? Thanks, look forward to your reply.

Thank you for your service to our district,

Dave Goggins

Subject: Oppose HB25

Dear Representative Claman,

Please do not support House Bill 25. I feel strongly that I should not be forced to pay for or participate in any way with abortion. Please uphold our freedom.

Sincerely,
Janel Ryan

Subject: HB 25

I am absolutely opposed to the "contraceptive mandate". To accept this ungodly line of reason is incomprehensible. To kill a baby at any age is the height of selfishness and definitely the integrity that this nation was founded on.

Subject: OPPOSE HB 25

Representative Claman,

We are writing to urge you to oppose HB 25, the bill to impose the dangerous "Obamacare" contraceptive mandate on all Alaskans. Not only is it outrageous and unconstitutional to mandate any coverage, but this especially egregious mandate includes forcing us to pay for **coverage for drugs that cause early abortions. Abortion takes an innocent human life, and there is no way we should be forced to pay for someone else's "choice" to do this.**

This is absolutely unconscionable and indefensible, and we demand in the strongest possible terms that you REJECT HB 25.

Sincerely,

Dennis and Michele Deering

Subject: Fwd: House Bill 25

Dear Rep. Claman,

My name is Morgan Hostina, a life long resident of Fairbanks Alaska.

I am urging your support of HB25 as I believe that it is an important step toward improving quality of life for the women of our state. Reliable access to birth control is the best way to help women avoid unwanted pregnancies and avoid health complications. Requiring health insurance plans to provide one year's worth of birth control is the best way to do this. I personally know several young women who live outside of our major communities and it is either extremely inconvenient or impossible to make regular trips in to town in order to fill new prescriptions or get regular doctors visits.

Thanks for your service and your consideration

MDH

Subject: KILL HB 25 NOT BABIES

Please only pay for preventative birth control.

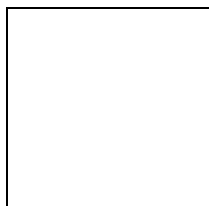

Please don't use tax dollars to abort babies.

The immorality of using people's money to kill babies is blood money.

Aborting a child should be one's decision, morally and financially. I should not have to take part in something as immoral as this.

Use the money that you would use for aborting babies to teach young people, boys and girls, to make wise decisions. To teach boys that 40% of their salary for 22 years will be taken for the nurturing of their child. Or have him pay for the abortion. Not the State.

Cut money where it should be cut. Get rid of employees and the entire costs of funding abortions. Our State is financially bankrupt. To consider paying for abortions is so wrong for the people of Alaska.

Subject: HB 25 and HB 54

To our Representatives,

I would like to share with you that I, along with my husband would appreciate if you protected our tax money from going to pay for contraceptives, as regarded in HB25. Our opinion is that if it that important to the young women to not be pregnant they should either not be involved in sex, or be responsible and pay for their own protection. We would rather see our tax dollars go to help fund the road maintenance and to help aid the military in protecting us.

We also would like to say that we are not in support of HB54 as well.

Thank you for your consideration. I would also like to point out that I know of many people who agree with us, but they are so busy trying to earn money to take care of their families because they actually pay for their taxes and don't get benefits that they can't find time or don't know how to easily communicate their voice to you. My husband and I are both very busy right now trying to finish up our last four weeks of college at UAF before we graduate with a degree in Civil Engineering and we are up to our chins in projects and homework to complete, but I decided to take the time to figure out how to get our voices heard.

-Hannah and David Rowland
