

I was born in the USA. I did over 20 years in the USAF. I live in Alaska and here is my thoughts. I shouldn't need a passport to go from here to the lower 48 or Hawaii. I don't need one because in free and live in a free country. If I go to a foreign country I need a passport. This drivers license B.S. or Passport stuff is just another way for our government to create a registry and track us the citizens. I'm against this registry for myself because I'm free not a slave or some kind of illegal alien.

I say vote NO and do away with this unconstitutional B.S.

Thank you for your time,
Neil DeWitt

Dear Committee Members, I live at 980 W 70th Ave, Anchorage, Alaska 99518. My phone number is (907) 344-2099. I was born in Anchorage on September 25th 1947. I am what is called a super voter. I take citizenship seriously and try to make my voice heard and my opinion count. I have Multiple Sclerosis and use a walker so I would rather testify by email than in person. I want to state my opinion that we do not want or need the Real ID in our state. If my driver's license is not enough to meet my travel needs I will get a passport. I do not want to be in any federal database for that purpose. This is a big NO vote on the Real ID.
Sincerely, Cathy J Kincaid

I am writing to say that I believe Alaska should not comply with federal "Real ID" rules. It is onerous and unnecessary legislation creating a burden to Alaska residents.

Barbara Farris
Anchorage
