Subject: PASS HB 222

Dear Senator MacKinnon,

Please...do not table HB 222. PASS IT~

It's a solid piece of legislation that will "undo" HB 131 which unjustly tells 1000s of professionals in the State of Alaska that our courses, our continuing education and our **THOUSANDS** of hours in the nail business are worth nothing—Go back to school. Huh? HB 131 should have never passed to begin with a fact of which you can be certain—Not as written.

Nail professional aren't worried about taking a board exam ma'am. They are worried about how they will support their families while they are sent back to school when many of these professionals hold thousands of hours in the business, worried about how they will pay upwards of \$4k (in this economy) who have done everything required of them to date and know their craft. HB might stop -1% of those who don't know what they're doing but affect 99% of us who DO know what we're doing—What about us?

If HB 131 would have "grandfathered" current licensed professionals in, it wouldn't have been a detriment to the industry. But the simple was somehow "forgotten" and now it's punishing thousands of license holders in this State. Did you read the piece in the ADN?

While all of us realize there are bills that are important this session with only days left, **please do not derail this grassroots effort & PASS HB 222.** It truly is our only hope.

I've been in the business since the mid-1980s in the State of Alaska and am one of the license holders who has thousands of hours under her belt and while I don't currently earn a living in the this profession, I have always maintained my license w/pride and done everything to continue educating myself etc. as many, many others have done. As an oil industry worker I stand up and with this group of people to help them fight the injustice that's been done.

Please help us~

Respectfully,

Dawn Conatser

Please pass Bill HB222. This is important for not only Nail Techs but effects our community if these people are out of work. I have been going to the same Nail place with the same tech for 10 years and always have received good very clean service with no complications. I am an RN and am very familiar with the importance of Infection Prevention. Thank you for your support in this matter.

Dear Senator MacKinnon,

I am a licensed Nail Technician in the State of Alaska. I say yes to the **repealing of HB222** for the following reasons.

- The bill was implemented without any support services available. There should have been a study guide available for purchase or refresher training offered.
- I feel that those of us that currently hold a valid manicure license and have the required 250 hours should be grandfathered in.

If you have any questions feel free to give me a call at 345-5503.

Sincerely,

Kellie Lynch

Subject: HB 222 Licensing of Alaska Mancurists

Dear Senator MacKinnon,

I ask that the Finance Committee and the Senate support House Bill HB 222 relating to licensing of Alaska manicurists.

I believe that licensing of manicurists is needed to ensure proper safety & hygiene procedures are used by nail salon personnel. However, requiring 250 hours of training to obtain a license is unaffordable & ridiculous, That is over 6 weeks of education that far exceeds the ability of manicurists to practice their trade safely. Perhaps the licensing requirements need to be strengthened, but any revisions should be open and include input from individuals working as manicurists. Perhaps a "grandfather" clause is worthy of consideration during this process.

Please support the passage of HB 222 and direct the manicurists board to start over. As with all public servants, potential conflicts of interest by a board member needs to be addressed during such deliberations.

Lastly, implementation of the 2015 legislation at this time will put many hard working men and women out of work because of their inability to pay for the required training.

Thank you.

Subject: VOTE YES: HB 222

Dear members of the Senate Finance Committee:

My name is Dawn Conatser-Kuhlman. While I understand the Senate has their hands full right now with the fiscal issues, the income tax, etc. and there's a lot of work to be done, some of that work that is important to Alaskans is **HB 222**.

HB 131 as passed a few years back strips hard-working Alaskans like myself who are manicurists in Alaska of our license which for me I've held since the mid-1980s.

The bill as written essentially tells manicurists that although we've passed all the required training courses to date, and have, in some cases spent **thousands of hours in the industry** that we now have to not only pass an exam that costs \$60.00 (not including all the textbooks and study guides and online practice tests), we NOW have to go back to school and obtain **250** hours of education. Education that is going to cost hard working Alaskans anywhere from \$3,000-\$4,000 and while we're going to school to keep our licenses, MANY HAVE NO JOB. This bill also serves to line the pockets I might add of one individual (i.e., Glenda Ledford, Owner of one of the Wasilla Schools) in particular who serves on the **Board of Barbers & Hairdressers**—Isn't that a conflict of interest?

Please...I'm pleading with you, pass HB 222 before session ends. This is a critical piece of legislation that if it's not passed will literally affect thousands of Alaskans.

If you have any questions, I'm working on the slope until Monday 5/15 and I'll be returning to the Anchorage office on Tuesday, May 16 and I can be reached at the numbers listed at the bottom of my e-mail.

Respectfully,

Dawn Conatser-Kuhlman

Dear Senators,

I'm addressing you today as a licensed member of the Board of Barbers and Hairdresser and concerned citizen. I have held a Hairdressers license in the state of Alaska since 1985 and also served as a Board Member for Barbers and Hairdressers.

The current regulations for Nail Technician licensing meets national standards and brings us closer to meeting current standards for safety and proficiency within this trade industry, insuring public safety when seeking services.

Repealing or rolling back the new regulations sets us back, when moving forward ensures our growing industry's future. Taking a proficiency test is not to much to ask when public safety is concerned. I do understand the pressure of out cry from a few.....but in reality we are protecting 100's of thousands and that should be your concern. Change is always hard but in the end it is for the better.

Thank you for your service,
Deanna Pruhs
