Rep. Josephson

I am a member of the Old Seward/ Ocean View Community Council Railroad Committee which was initiated to study the issues prompting HB93. Following this study the CC passed a resolution asking for assistance from elected officials regarding the ARRC easement . The Taku/ Campbell CC has passed a similar resolution which is found below.

This issue affects 1200 private property owners and families.

The reason for this email is to indicate that the email below seems to have your email address wrong and we want you to know about the Taku/Campbell CC Resolution.

HB 93 is a small step and we hope that it will gain your support. Erick at Rep. Kopp's office has all info referred to above and we believe that the best process would be to allow Erick to act as "ring master" for the information on this issue. Please rely on him for information.

However, If you wish to call or otherwise communicate with me my number is 345-3981 or 229-4698 in Anchorage.

As an aside, you folks down there have a tough and thankless job. You have our support in making decisions that work for all of us.

OSOVCC Resolution: precedes HB93 but the major concepts of HB93 are found there.
