Subject: HB 6

Dear Representatives,

I am a resident of Sutton and am concerned about the destructive and reckless behaviors of non-residents in the Jonesville Mine area. Please create a Jonesville Public Use Area in Sutton to allow the department of Natural Resources to manage the Jonesville Mine area. The natural beauty of the Jonesville area should be for the benefit of all Alaskans. We should be able to use the area without concerns over our safety. The destruction of the natural environment here needs to stop. HB 6 was introduced by Representative George Rauscher to address this problem. Please support his efforts. Nancy Dryden
