FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

BILL NO. HB 355

Analysis

This legislation will update the wildland fire statutes to use current terminology and definitions, provide a tighter linkage to the criminal code statutes associated with violations and establish an updated, scalable range of offenses and associated fines from misdemeanor to felony.

Department of Natural Resources does not anticipate any direct fiscal impact. Updating regulations and some training for fire prevention staff will be absorbed by the department. While the bill addresses fines for offenses, the changes made to existing statutes are not expected to generate a meaningful amount of additional revenue.
