EASTERN ALASKA RANGE THROUGH HIKE

The Eastern Alaska Range is a spectacular and wild region of Alaska. Come learn about a traverse expedition that took place this summer taking its team across the Delta River and then across the Eastern Alaska Range to the final destination at Denali National Park entrance area. The group was led by Mike Hopper with a team with experience in mountaineering, photography and natural sciences. Members of the expedition have put together a short film, and presentation to share their experience traversing one of the most challenging and wild areas of the state.
