

## **SIGNIFICANT LANGUAGE DIFFERENCES: SB20 VERSION M TO VERSION S**

CSSS SB20 is identical to the Governor's February 13<sup>th</sup> bill (Version M) with the following exceptions:

- The sections are arranged in the order Legislative Finance prefers and
- Legal Services made some technical tweaks.

A document compare is posted on the Legislative Finance website—that document shows every change, down to commas and parentheses. The list below addresses only changes that may appear to be significant. OMB has reviewed the document compare and reported that the CS retains the original intent. The transactions that comprise the two bills are identical.

1. Page 3 line 27 – Section 8(c) – POMV Draw language. Legal Services revised this language for to comply with their drafting manual. There is no substantive change.
2. Page 7 line 6 (Former section 10(h)) – Because Section 10(h) appropriates funding from the Community Assistance Fund to the general fund, this subsection was moved to subsection 22(x) in the Fund Capitalization section.
3. Page 8, lines 19-30. Subsection 13(d) takes effect in FY19. It appropriates \$172.4 million from the Statutory Budget Reserve Fund for Medicaid Services in FY19 through FY21 if federal approval of State Plan Amendments is delayed.
4. Page 17, lines 26-27. Subsection 22(f) transfers funding from the dividend raffle fund to the Education Endowment Fund. Because this is a fund transfer, Section 22(f) was moved from the Fund Capitalization section to the Fund Transfers section. (See item 8.)
5. Page 18 lines 7-9 and lines 13-15. The Governor's request includes two appropriations for oil and gas tax credits--an \$84 million FY19 appropriation and a FY20 appropriation for \$170 million. Legal Services relocated the FY20 appropriation for \$170 million below the \$84 million FY19 appropriation.
6. Page 18, line 16-25, Subsection 22(j) and (k). Legal Services split the Governor's subsection k into two subsections.
  - a. Subsection 22(j) appropriates a "hard" number of \$16.5 million from the School Fund.
  - b. Subsection 22(k) reduces FY20 K-12 Foundation formula funding by 23%.
7. Page 20, lines 21-22, Subsection 22(x). This subsection affecting Community Assistance was moved from Section 10(h) (the DCCED section) to the Fund Capitalization section. See item 2.
8. Page 22, line 29-30. As mentioned in item 4, an appropriation to the Education Endowment Fund was moved from subsection 22(f) to subsection 23(l).
