

March 13, 2019

Representative Lincoln; Representative Tarr:

I am writing to express my support for Jason Brune to the position of Commissioner of the Dept. of Environmental Conservation.

I have worked with Brune over many years and strongly believe that he has the administrative experience and management credentials, coupled with a technical background in biology, to serve Alaska and Alaskan's well as the Commissioner of DEC.

Respectfully,

Paul S. Glavinovich, CPG
