**Subject:** Commissioner of DEC hearing

Representative Tarr - Please do not vote to confirm Jason Brune as Commissioner of Alaska's Dept. of Environmental Conservation. This would be a radical appointment, contradicting much of what Alaska has stood for in the past, especially preserving our salmon runs. He was a spokesperson for Pebble Mine, the Executive Director of the Resources Development Council, ran a mining organization Pac. A very large proportion of Alaskans would have no trust in our Dept. of Environmental Conservation.

Thank you for your attention. Judy Brakel, Gustavus, Alaska
