Alaska Senate Resources Committee

Subject: SB87

Dear Chairman Birch and Members of the Senate Resources Committee:

I support the passage of SB87 to restrict the non-resident hunters and limit their access to big game before limiting resident hunters in Alaska. For way to long the residents have take a back seat to non-residents rights. I urge your passage of the language to require the Department of Fish and Game to take mandatory action on restricting non-resident big game rights first, before resident hunter restrictions, in regular season bag limits as well as any Drawing Permit and Registration permit hunting activities. I am a member of RHAK and support their position on this issue.

Sincerely,

Gary Kuhn, Resident of Alaska  
PO Box 2830  
Palmer, Alaska 99645
