

March 31, 2019

Dear Chairman Birch and the Honorable members of the Senate Resources Committee;

As a 30 year resident of Alaska and a person who hunts and fishes as a means to provide my family with healthy, wild caught meat and fish, I respectfully ask for your support of Senate Bill 87. This bill, as you are aware, changes just a single word in the current statute. This small change will provide, in times of limited resources, that those limited resources will not be harvested by nonresidents. Ensuring that resident Alaskans have priority seems commonsense and SB87 addresses this commonsense thinking.

Your time and consideration is appreciated by me and my fellow Alaskans who prefer to go afield and harvest game and fish.

With respect,

Michael Bryan,

378 Shannon Drive, Fairbanks, AK 99701
