**Subject:** SB20 & SB21

Senate finance committee,

Please follow the current State statute and pay a full PFD by the 38 year traditional formula. Governor Walker opened the gate for PFD theft and the legislature continued to do so by passing SB26. You can't legally continue to ignore the 38 year traditional formula.

Governor Walker was shown the door as many others will be by ignoring the current State statute.

Cut Medicaid expansion that Governor Walker introduced.

Cut all pre-K and head start funding. These programs are State funded daycare.

Please fund public television. Without this oversight, Juneau will become the wild west during the Legislative session. Plus I can't stop watching Dick Pronneke build that cabin.

Please pass SB92, and request that the House come up with a companion bill. If all of the people that are calling in donate as per SB92, the budget gap will be reduced significantly, and those that wish to receive their PFD may do so.

Please support moving the Legislative session to Anchorage, as well as the Capital.

Thank you for your time and have a good weekend.

Respectfully,

Chris Hayes  
Kenai Alaska
