House Bill 75 Explanation of Changes Version A to Version M

“An Act relating to funding for Internet services for school districts.”

Section 1:

Removes “a minimum of” to remove ambiguity that was identified by the Alaska Department of Education and Early Development. This change clarifies that the funds are only available for districts that are currently below 25 megabits of download per second.

Sections 2 and 3:

These sections provided that money from the Alaska higher education investment fund may be appropriated to fund school Internet services under AS 14.30.127. These sections have been removed in the current version so that the program will be funded with general funds.
