Prevention & Early Intervention

Grantees engage community service agencies, schools and other organizations in a collective effort to prevent underage drinking and binge drinking; to prevent suicide; and to encourage community wellness.

7 of the 18 grantees focus specifically on substance misuse issues-alcohol or both alcohol and drugs

On the horizon-a statewide alcohol prevention alliance focusing on alcohol misuse

Grantees use the Strategic Prevention Framework (SPF) as a foundation to guide their efforts.

Strategies are based on local/regional data and identified community need.

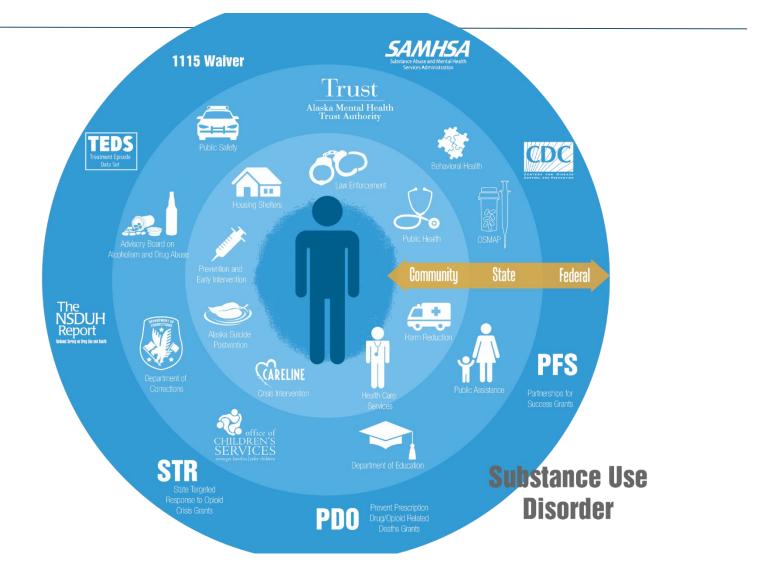

Be(You)-beyoualaska.com

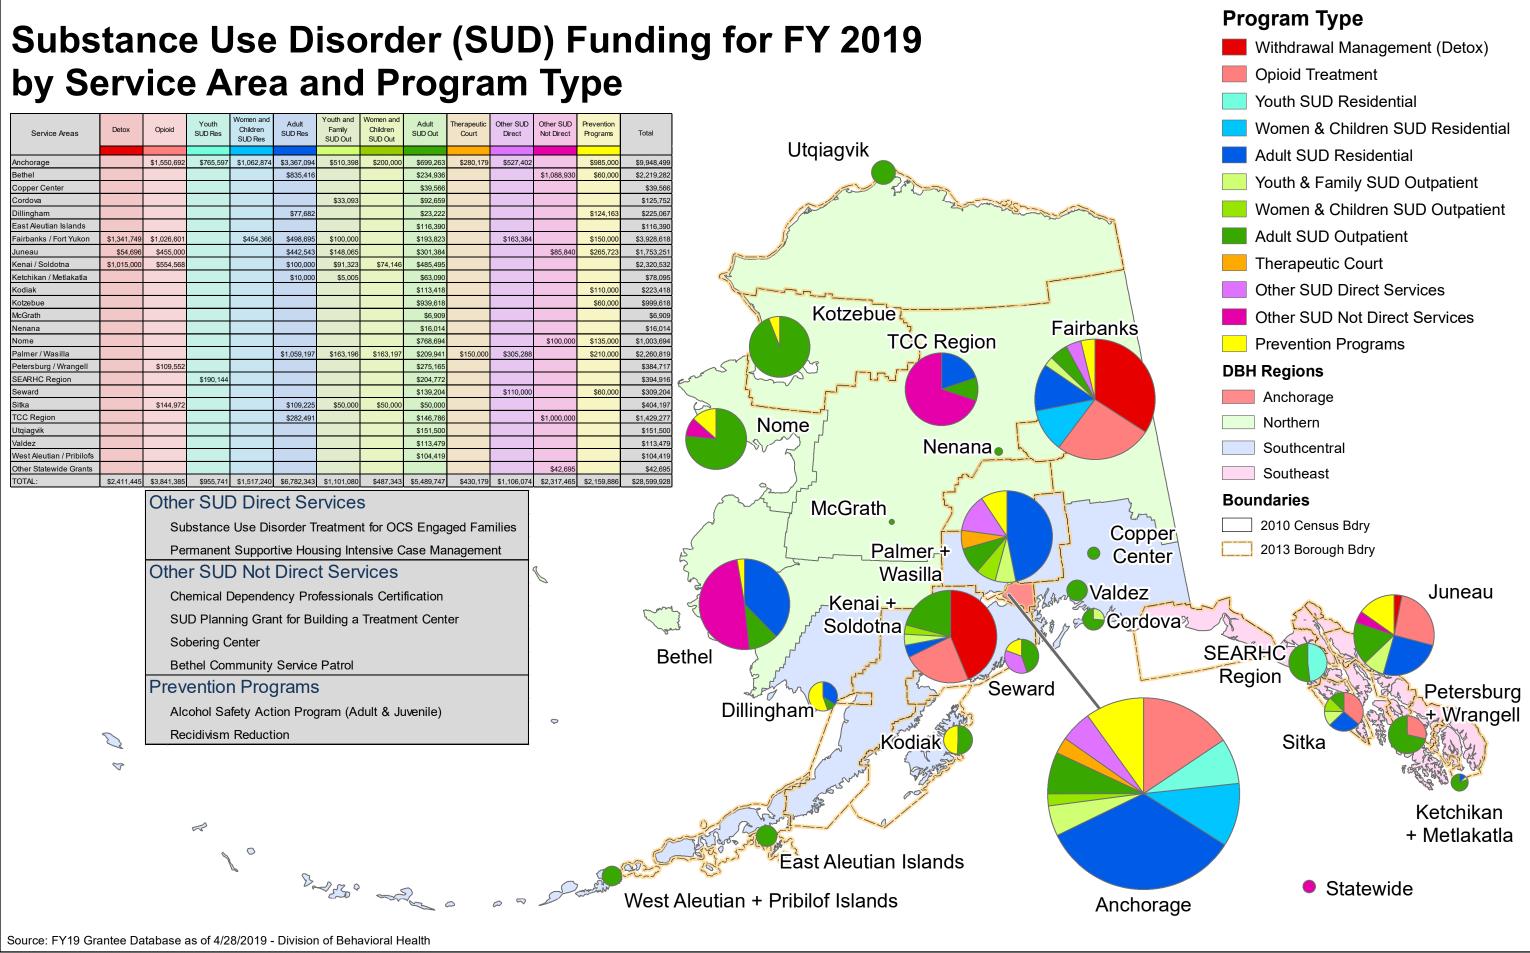

Funders for Be(You) include ANTHC, Mat-Su Health Foundation, Rasmuson, AK Wellness Coalition, the Trust and DBH

BE (You)-Most AK teens don't drink
