To our Representatives,

Please know Governor Dunleavy was elected, in a large part, because he said he'd attempt to balance the out of control budget.

Also he campaigned on a promise restore/pay the PFD, which had been robbed during the former administration.

It's imperative that the full PFD be paid including 3 yrs back pay. The PFD needs to be considered as a stand alone entity.

Such a huge part of our states residents financial health needs to be protected from legislative over reach & special interest greed.

Respectively

These are what we are calling the "payback" bills for the PFD's.

The amounts that were withheld in 2016, 2017, and 2018 which should have gone to Alaskans.

There are Bills afoot to move Billions from the ERA to the Fund Principal, but not pay back the Dividend amounts owed to Alaskans.

This is very sad. Right now the amount owed by Statute is 2.3 Billion plus the "interest" accrued thru investment.

We are going to do our best to recover this money, which is about \$3700 to each recipient, by means both political and legal.

The annual Dividend should NOT be appropriated by the Legislature, but be allowed to occur as written in Statute. If you need to change the Dividend amount, you should change the Statutes pertaining to the Dividend. This is just the proper way to do things, which you certainly know very well.

I support SB23 & SB24. Cut the budget and return the full PFD, plus the previous years' withheld amounts.

By not supporting and passing SB23 & SB24 AS IS, you are taking money out of the pockets of the poorest to help fund bloated and ineffective government spending. It's virtually a 50% tax on every man, woman, and child resident in this state. It is THEFT.

We have given up our mineral rights to our properties in exchange for a percentage of the whole investment fund, a 'Dividend'. We are entitled to it, yes, but it is not 'free money'. Value was given in exchange for it being invested for us. It is FOR the people of Alaska, BECAUSE the people of Alaska gave up their personal mineral rights to create the investment fund. It was NEVER intended to fund government programs.

It is an intentional and yearly economic stimulus plan for all residents, especially critical to the larger, low income families. We all depend on it for extra food, housing costs, heating oil, firewood, and yes, even property taxes (which are also going through the roof).

The government has to learn to balance it's checkbook and operate on a budget, just like any common housewife can. It's not rocket science. Don't spend, or promise to spend, what you DON'T have. Throwing more money at failed programs just means more costs incurred by those failed programs. Doing the same thing over and over, expecting a different result? That's the definition of insanity.

There is nothing more disgusting than a POMPOUS CIVIL "servant"...try working FOR the people of Alaska instead of special interests and instead of growing government, try SHRINKING IT!
