Re: **HJR 7** – Constitutional Amendment: Appropriation Limits, Reserve Funds / **statement in opposition**

Chair Kreiss-Tomkins and Members

**I am strongly opposed** to this effort by the Governor because:

- The budgeting process is complicated and changes by the hour. There is no sense in establishing constitutional limits in this process.
- We already have representation to deal with these complicated matters (budgeting), it is the Legislature (you)!

Please let HJR 7 die in committee.

Sincerely,
