To: House Finance <House.Finance@akleg.gov>;

Categories: Lynn

I support HB1005, which offers a \$3000 dividend this year, then recalculates future dividends that allow state government to save, earn, and invest more, allowing the state and people of Alaska to be able to fully fund education, a constitutional obligation, and also be able to use added future earnings, and our legacy savings, to help replace the lost oil revenues we have depended on in the past.

..Thank you for making hard and unpopular decisions for the good of us all, but particularly future Alaskans. We cannot let the desire for ever-growing dividends overcome our duty to operate the state and fund infrastructure and obligations. -JohnMcDowell Spenard, Alaska.

Good morning,

I am writing today to inform you I **do not** support HB1005. The full PFD is the **ONLY** way to go for **ALL** the years it is in place. Dropping it to 25% or any other amount of a payout is unacceptable. State spending is THE issue, pass a budget within our states means and over time we will be back on track.

Thank you,

Kaci Gillham

I support HB 1005. The reality is that Alaska's ability to rely on oil revenue has been on the wane for years as was predicted decades ago.

Clearly, we need new revenues like reinstating our former tiny income tax rate and repealing and replacing the current oil tax credit formula. It is ironic that our current debt to oil corps is \$1.2 billion, almost equal to the amount of our budget shortfall.

It is interesting that following 2013, when the current oil tax credit program went in to effect, we immediately lost \$2 billion (!!!) and we've suffered \$ billion deficits every year since 2013, requiring harmful cuts to PFDs and critical services.

Unfortunately, so many people loyal to the governor demand the PFD while ignoring a major cause of our losses, that 2013 oil tax credit plan. The solution is simple. Repeal and replace the current oil tax credit law, SB21, and get us a better deal.

To our Representatives,

I do not support HB 1005 cutting future permanent fund dividends while funding this year's pfd at the written original as intended formula.

I support Governor Dunleavy's budget as he has proposed.

I urge you to support the Governor's budget.

I urge you to NOT- I repeat NOT- support HB 1005 cutting future dividends.

Permanent fund dividend is a massive huge financial boost to families paying bills, buying winter fuel for gosh sakes, mortgages, rent, bills, bills, bills, as well as being a huge boose to the local business community as citizens prepare for Christmas and Thanksgiving.

NO on HB 1005.

Sincerely,

V. Penny Gottsche, a voter.

We severely, distinctly oppose hb 1005.

We voted to support the original permanent fund bill in the late 70's. We support maintaining current permanent fund law as we voted for back in the 70's.

Julie Welch

Ninilchik, AK

 Download Show email

Dear legislators,

Please do not support HB1005. I understand this bill bribes Alaskans with the payout of a full dividend in 2019, only to rewrite the formula for computation of much lower dividends in future years. We Alaskans will not be bribed and we will not be fooled.

Professor Emeritus Scott Goldsmith of UAA's Institute of Social and Economic Research (ISER) warned us year after year that cutting the dividend was the worst possible solution to managing the state budget. Cutting the dividend, he said, would do more harm to the state's overall economy than any other approach.

Alaska's public sector economy needs to be cut. It is unsustainable. But our private sector economy is hurting. Please do not inflict more pain by transferring billions of dollars of future dividend payments from the private sector to the public sector. Continuing down this path will crash the private sector economy and crush individuals and families.

If you want my support, I ask you to reject HB1005, and give your support to HB1002. Vote for a healthy private sector economy and a bright future for Alaska.

Also, more notice to the public should be provided!

Thank you,

Cynthia Fitch

HB 1005 appears to be a compromise that might satisfy the Governor but it is still disappointing. Despite the need to raise new revenue the Legislature is still depending on our Congressional Budget Reserves (CBR) to bail us out. Earlier in the session; Senate President Giessel spoke on a State-wide call in show on Alaska Public Radio noting that the CBR shouldn't be touched this year (except for emergencies) because the balance is only \$2 Billion dollars. Let's not forget that just a few years ago the CBR was \$16 Billion and the current balance of \$2 Billion is a direct result of the Legislators inability to address the issue of needing to raise revenue.

HB 1005 also keeps the full weight of spending to support services on Alaskans. This despite the fact that an income tax could collect dollars that are removed from our State and used to support services in other States. (California taxes incomes for money earned in other States if that State doesn't have an income tax...one example).

I disagree with the Governor's assertion that changes to the Permanent Fund formula should only come from a vote of the people. The people voted in our representatives to make decisions that benefit the citizens and the State. I'm still hoping for better decision in the future; in the meantime we have a ballot box and initiative system to make our feelings known.

The larger dividend will not go far in southeast Alaska since we will be expected to pay more to support our schools, have to use expensive jet or airplane services instead of ferries, or pay out-of-state tuition for our kids wanting to go to a university.

To the House Finance committee

This bill whom my own Representative Tammie Wilson has presented to you is wolf in sheep clothing robbing the citizens of Alaska of the PFD. This fund is not for you to consider in your budget and should never be. Your budgeting skills seem to be lacking the request of the citizens to cut your budget and fund with in what the state can afford.

I do not support HB 1005. I will support HB 1002 with a balance budget. Please listen to the people

To Whom It May Concern,

I, as a concerned, born and raised Alaskan citizen, wish to express my full support of 1002 and giving Alaskans the full PFD.

The Alaskan government has a responsibility to use its many resources and incomes wisely and hence not cut into a fund that was specifically set aside to support Alaskans: the Permanent Fund Dividend, which, as the name suggests, was to permanently give money from Alaska's natural resource revenue directly into the hands of the people.

In this way, the Alaskan government can become a government that is "of the people, by the people, and for the people" (Gettysburg Address). Otherwise, would we not have a socialistic government, distributing money and funding programs for the people as it sees fit with little to no accountability? I lastly say that without conscious effort to give power back into the hands of the people by retaining as little funds as possible to run a small and Capitalist government, our government will soon become Socialist - a blatant contradiction to the Founding Father's design.

Sincerely,

Anna Maxwell

To whom it concerns,

There should be a vote from the people of Alaska before a bill is signed. Full PFD every year with no touch from government or the state with no cut backs on it. Permanent Fund Dividend is just that, a dividend from the oil to the people. The revenue of Alaska will rise from the economic growth the people will give to the state and businesses with a full PFD. Thank you.

Good evening,

My name is Amber Shumpert, am a resident of Alaska, and am writing this testimony on behalf of myself, husband, and children.

We are completely AGAINST HB1005. We insist upon a full PFD payout, as outlined by the original law, with no rider for next year. Bribing us with a full payout, which we are already entitled to, with the stipulation of cutting it in half next year is UNACCEPTABLE.

Continual theft of the PFD will have negative and drastic results in the coming elections.
