Date: 01/17/20

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2020 LEGISLATIVE SESSION

BILL NO. HB 27

Analysis

HB 27 would add new sections to AS 18.31 entitled "Toxic-Free Firefighters and Children Act", regarding the use of flame retardant chemicals in consumer products. The bill would prohibit manufacturing, selling or offering to sell, or distributing for sale a consumer product containing specific flame retardant chemicals listed in Section 3. Section 3 of the bill would require that manufacturers label products, stating whether the product does or does not contain any flame retardant chemical.

If manufacturers, sellers, or distributors violate these provisions, Section 3 would provide a civil penalty. It would also make the violation an unfair trade practice under AS 45.50.471 - 45.50.561, which would allow the Department of Law's Special Litigation component to commence an investigation under AS 45.50, possibly subjecting individuals to additional remedies.

Should HB 27 become law, the Department of Law expects a limited increase in work, but anticipates it could be absorbed into existing resources.
