Subject: DEC's interest in HB 203 Transportation Of Live Crab

Good morning –

The Department of Environmental Conservation's Environmental Health Division includes both the Office of the State Veterinarian and the Food Safety Program. I have been advised by Christina Carpenter, Division Director, that the Environmental Health Division does not have any concerns with HB 203 Transportation Of Live Crab as it is currently written.

Best regards,

**Laura Achee**  
**Information Officer**  
**Legislative Liaison**  
**Alaska Department of Environmental Conservation**
