

Hmong Alaska Community Incorporated

P . O . Box 140634. Anchorage, AK 99514-0634

Dear Legislators,

On Thursday March 28th, 2019 I provided my personal testimony in support of HB 56. HB 56 aims to establish May 15th of each year as Hmong-American Veterans Day in Alaska.

From 02/28/1961 to 5/15/1975, 300,000 Hmong soldiers fought alongside American soldiers to protect the Ho Chi Min Trail in Laos and Vietnam. Hmong soldiers fought at the request of the American Military for the United States. An estimated 46,000 Hmong soldiers died including 11,000 whose bodies were never recovered for a proper burial. The American military had 500,000 soldiers with 58,579-recorded deaths.

In February of 1972, I served as a Hmong soldier specializing in radio communications. I corresponded with pilots who flew B-52, F-15, F-16, and T-28 bomber planes.

During my service, I was shot several times. I was shot by an AK-47 in my left hip, left hand, and right shoulder blade. I was also shot in on the right side of my head with metal fragments lodged into cranial cavity. I was unconscious for 86 hours or 7 days.

May 15th will honor the service of the Hmong men and women who fought in the war, those who lost their lives, and recognize the important partnership between the Hmong people and the American people.

Thank you.

Re: HB 56 – To Make May 15 “Hmong-American Veterans Day”.

To Whom It May Concern:

My name is May, and I support HB 56. I am writing this letter in hopes to address some of your reservations regarding HB 56. You may have questions concerning whether to support HB 56 to make May 15th “Hmong-American Veterans Day” and questions of how this day differs from Veterans Day, or why dedicate a day for the Hmong-American Veterans when there are so many different groups throughout the world that have contributed and fought for our Country. With one certainty, there is no story superior to another, but also, no story should to be told while the other story ought to be undisclosed. What took place over forty years ago during the Vietnam War remained a tragic loss for all involved, but it is the story of the Hmong Veterans and their participation in the “Secret War” that for decades was concealed. May 15th signifies the end of the last battle, but also a new beginning for the Hmong People. This day dedicated to recognize the Hmong Veterans for their sacrifices, their loss, and their efforts should be no different from any other day; to name a few: Indigenous Peoples Day, Pearl Harbor Remembrance Day, and the Alaska Police Memorial Day.

The Hmong Veterans’ contribution in the Vietnam War has been undisclosed for decades. It was during the Vietnam War, that the CIA recruited the Hmong people to prevent the North Vietnam from supplying to their troops and from sending more troops to the South. The Hmong Veterans interfered with the supply link in the Ho Chi Minh Trail otherwise known as “The Blood Road” (US History, n.d.). The U.S. could not block the Ho Chi Minh Trail with ground forces because the countries it passed through were neutral. Hence, the need of Hmong forces and the reason it became the Secret War. This trail was the heart of the war and carried as many as 20, 000 Vietcong soldiers a month to the South. Thousands and thousands of Hmong Veterans including civilians, woman and children perished during this war. Nevertheless, the Hmong Veterans interceded distributions through the Ho Chi Minh Trail. It was the Hmong Veterans, the “fierce jungle fighters who rescued downed U.S. aircrews, gathered military intelligence and fought the communists to a stalemate” (Shay, 2009).

Parents and Grandparents spoke little about their involvement in fear of retribution, and simply because they did not want to relive the traumatic events and emotions of losing their loved ones. Not sure if you could imagine having to run from your home because your people were being hunted like animals and the only possibility of survival is to take your chances and run through the bullet-filled jungles to neighboring countries seeking asylum. For decades, the Hmong People who have suffered, who have perished, who have survived the war received little to no recognition. What was once the story many refuse to speak of has slowly surfaced as their children start to ask questions others have asked them, “What are you? Where are you from? Why are you here?”

What was the Secret War during the Vietnam War is no longer a secret. Yet, even the decedents of the Hmong people know very little of their own history. The "Hmong-American Veterans Day" would allow their story to be heard, to be a part of history, and to matter. Having this day dedicated to recognize the efforts of a group of people (the Hmong Veterans) should not be so difficult to do. This day would simply be a tribute to their sacrifices, their loss, and their efforts and for what they have endured during the Secret War.

The Secret War affected my parents and many others a great deal. My father led several Hmong soldiers during the Secret War, but not once was he publicly recognized for his service. This day would at least bring more light to their part of history, to recognize the Hmong Veterans for their sacrifices, their loss, and their efforts. This day would assure them that they are not forgotten and their efforts will forever be remembered. Let this day be their day that their stories may also be heard. So that when someone ask, what is "Hmong-American Veterans Day?" They can also tell their story.

So, when you question whether to support HB 56 and why dedicate a day for Hmong-American Veterans Day, for the reasons stated above and if that is still not enough to get your support, then I am wrong to assume that you are reasonable. While other stories have been heard, their stories have yet to be brought to light. By supporting May 15th as Hmong-American Veterans Day, it is the least we can do as a State and as a Community, to demonstrate our gratitude. Should you hold any reservations about supporting May 15th as Hmong-American Veterans Day, I'd like you to be mindful that others have days dedicated to their involvement, their participation and their causes, nevertheless all should be equally supported and all should have an opportunity to be recognized and heard. Therefore, your support to make May 15th Hmong-American Veterans Day would be greatly appreciated by the Hmong Community.

Thank you,

May Ramirez-Xiong

Dear Legislators,

I am writing in Support of House Bill 56, sponsored by Representative Geran Tarr. This bill would help establish May 15th as Hmong-American Veterans day in Alaska.

Hmong Veterans fought on behalf of the United States and alongside American soldiers during the Vietnam War and the Secret war in Laos. More than 40 years later, Hmong-Americans are still working to be recognized for their service and sacrifice on behalf of the United States.

HB56 makes Hmong American Veterans Day a permanent recognition in Alaska of the courage and sacrifice that was made on behalf of the United States by the Hmong people. This recognition is an important way to honor and the large population of Hmong people who have chosen to settle in Alaska.

Thank you,
