**Subject:** Emergency PFD Disbursement

To whom it may concern:

I am writing you this morning in an attempt to sway your decision to decline the emergency disbursement of 2019's PFD to the residents of the State of Alaska.

Due to the unfortunate outbreak and pandemic of COVID-19, many Alaskans have unexpectedly lost their employment and sources of income. Many of them are unsure how they are going to provide basic necessities for their families. Mothers, fathers, brothers, sisters, families are ALL affected by this sudden loss of income. Not only does this affect families on a personal level, it affects our Alaskan economy. With no money to spend on even the most basic of necessities (food, water, clothing, etc.), there is no money being pumped into our businesses. We are already more than likely going to lose our tourism economy for this summer due to the travel bans/restrictions and the uncertainty of what is going to happen next. In order to keep Alaska thriving, we NEED it's residents to be able to provide for themselves and pump what money we can back into our State.

Many people I know are extremely concerned and uneasy about the future due to losing their employment for an unknown amount of time. The disbursement of last year's PFDs is the right thing to do; it's Alaskans helping Alaskans, which is something I've come to be proud of this state for. When times are hard, Alaskans band together to make it through.

Please, do what is right by your fellow Alaskans and allow the remainder of our PFDs to be distributed. Families need it. PEOPLE, living breathing people just like you, need it. ALASKA in all her beautiful glory needs it.

Hopeful,

Chelsea Donohue

**Subject:** Position on COVID-19 economic response

Dear Members of the House Finance Committee,

I am writing today to express my strong opposition to the Governor's plan to provide assistance by paying back PFD's in the amount of roughly \$13k. Our family, and many like ours, is fortunate enough to be working and be stable. Giving us this money would be a complete waste of vital funds, and would damage the State's ability to take other actions necessary. I am able to complete my job as the manager of a construction company from home, and my wife is an emergency room PA in Fairbanks, who will be working increased shifts in the coming weeks and months.

Support of our fragile economy is necessary. It needs to be targeted, and it must be aimed at the Alaskan families and businesses who need it. Unemployment claims provide a list of those hurting right now. I support bolstering payments to those recently out of work. In the coming weeks and months, private employers in the medical industry such as the one that employs my wife, will need prompt and complete payment for the massive amount of services rendered. Loans may be needed to prop them up so they can continue to buy supplies and make payroll while caring for their neighbors. Businesses that have had to close their doors need immediate support so that when this emergency is behind us, their doors open again.

Please save the dwindling amount of resources the State has at its disposal and use them for critical support to the parts of our economy that actually need them. Thank you for your continued service and for taking the time to consider my opinion.

-Marcus Trivette

**Subject:** Vote

Today was my husbands last day of work as he is being laid off due to the state mandated closures. My family lives paycheck to paycheck like many, many Alaskans. Our cost of living among the highest in the nation. I am so utterly disgusted that so many representatives voted against emergency economic relief for Alaskans. Our tax dollars pay you \$50,400 per year plus healthcare and 247\$ per Diem for the many extra days you take to accomplish anything and all for a part time job. It's no wonder you are able to weather this virus, you're doing so on the backs of hard working Alaskans. Among you are real estate investors, former bank Vice Presidents and lawyers. You are set, I on the other hand will run out of firewood to heat my home and food for my family this week. The one thing you all have in common is that you are up for reelection or as I like to refer to it, "losing your jobs" in 2021. I hope you can live with yourselves as your constituents starve. You are disposable, despicable, disgusting and lack a conscience and moral compass. I will happily vote against you, or help your opponent in replacing you, if you are not on my ballot. 2021 can't come fast enough.

Regrettably,  
Krista Kimple

Lets talk about blocking an emergency PFD-

Once the PFD average became part of the best years from oil the legislature decided they needed that money so much more than the people that they weaeled a way to take some of it.

Why, oh why, should Alaskans keep throwing good money after bad??

Step up and do the right thing and authorize the \$1300. You absconded last year. Then other decisions can be made when your constituents arent making sure they dont miss a food line.

I have been here since 1965.

The Legislature sure leaves a bad taste in peoples mouths any more.

Hello, my name is Myra Timas and I am an Alaskan citizen. I have recently lost my job like all others in anchorage have due to the Coronavirus pandemic. I have recently heard that you have declined the emergency PFD fund that was owed to us Alaskans since 2016 and I am furious. I had hope that our own government would help us in troubled times as this because I have no idea how I will be able to pay for my car or other bills while we were forced to be laid off from our own jobs by the government. Us citizens are doing our part in obeying your orders but you guys have done nothing to help your people. My mother and I are both out of work and although we won't get evicted for the next 60 days but what about after that? What if we can't get our jobs back? What if this pandemic gets worse and more folks are laid off? What are you going to do then?. I simply can't bear to be on the streets with this virus going on with my mother and little sister who are susceptible to it, I will not allow it.

**Subject:** Fwd: COVID-19 Response - Give Us What Is Ours

To whom it may concern,

My name is Emily Gibson from Palmer, Alaska. I am asking that you help your fellow Alaskans by providing our PFD monies that have been withheld over the past 3 years. Food and grocery prices have been going up and families are unable to make money to pay for basic needs and costs of living. For example, I was supposed to start a new job on Tuesday, but I am now unable due to business closures. Since I have not already started working, so I cannot collect the unemployment that benefit so many. Extended family members are out of work for weeks for self-quarantine, as a result of being exposed to an individual with confirmed COVID-19 while completing her duties at work; she is not being compensated by her work for time off. Thank you for passing HB308 so those laid off can have some income during this difficult time, however, it does not help everyone in need.

Based on what we have seen in other staes and countries, this is only the beginning. Again, please consider allowing Alaskans to have their rightful PFDs in full from previous years so we can continue to provide care to our dependents.

Bless you all,  
Emily Gibson

**Subject:** Covid-19 relief

I listened to some of the testimony a couple days ago and it sounded like Groundhog Day—same special interests wanting business as usual, just like last year and the years prior.

The oil prices and Covid-19 status say we can no longer conduct business as usual. It's time to get off this yearly merry-go-round where we see the same hands stuck out asking for the same bloated spending levels, in spite of over \$14 BILLION in savings having been frittered away.

The public sector doesn't feel the pinch in a catastrophic downturn because they are contractually protected; they will receive their paychecks no matter what. There is a HUGE disparity between the two people groups. The public sector needs to contract. Many budgetary suggestions have been made over the past few years in Groundhog Day fashion. Same crap, different year! Nothing changes and we continue down the same path of elevated per capita spending. If we can't get our poop in a group, we (Alaska) are doomed.

As provided for in the Governor's plan yesterday, the past-due PFD payments should be a priority in this situation. Everyone will get it, but the private sector will benefit the most.

I just listened to further conversations in your committee, during which Representative Cathy Tilton asked to re-open discussion on the bill providing for a PFD. Are most of you TONE DEAF?! Only 3 members voted in favor, when the majority of Alaskans support this measure.

Thank you, Representative Tilton, Representative Ben Carpenter, and Representative Representative Sullivan-Leonard for working FOR THE PEOPLE.

What are the rest of you doing there if you are not going to represent the People?!

Beyond fed up!

Linn McCabe

Do we Alaskan's need to travel to Juneau to get you guys to listen?!

Most of you have forgotten you were voted and put in your current position by Alaskan's to represent Alaskan's and you are failing miserably. Instead you all are hiding out in Juneau racking up that per diem money, looking out for special interest that'll continue lining your pockets. You guys need a reality check.

Walker didn't get the votes to continue another term because we were sick of his crap, now most of you are wanting to continue we're he left off and we're not having it, you will be replaced.

Dunleavy is trying to do right by Alaskans.

He, like the rest of us honest people are sick and tired of you guys making decisions that you have NO right to make. The PFD is a perfect example; Walker stole from Alaskan's when he made the decision to STEAL the fund from the people of Alaska. THAT WAS NOT WALKERS MONEY TO DISTRIBUTE AS HE SAW FIT. It's called embezzlement. He robbed Peter to pay Paul and some fools believe in the name of funding our social programs. What a crock. So he didn't "politicize" anything. WE the PEOPLE OF ALASKA who know the intent of that fund HAVE HAD ENOUGH and thank Dunleavy who has heard us loud and clear. Pay out every Alaskan the previous PFD funds that have been taken over the last few years.

Regards,

An Alaskan that's lived here 35 plus years.

**Sent:** Monday, March 23, 2020 5:50 PM  
**To:** House Finance  
**Subject:** Please read my letter

Hello.

I know you probably won't get this letter.

But, I'm coming to you as a single mom, business owner and Alaskan for 26 years. I appreciate the efforts made to get our pfd to us in these times of crisis.

I've lost ALL of my contracts with my business. My landlord just sent out an email to all of their tenants saying if rent isn't paid by the first without a letter, we can't be promised we won't be evicted.

I have to feed my children and worry about keeping a roof over their heads. I work my butt off to provide for them and this pfd would literally save me and my kids from getting kicked out to the streets. Please help us. Please.

Many many Alaskans are now facing putting food on the tables for their family or being put out on the streets. I'm losing hope in humanity. We need answers and hope. Something to lean on.

Please, as everyone goes home to their warm beds at night, remember us. Remember us that have been left without resources, without money coming in and possible loss of our homes.

Put all of your politics aside and think about the hearts of Alaska. Think about the single moms crying at night with fears of the unknown, the fathers losing hope because they CAN'T provide for their families and every single child in our beautiful state that is now suffering, not because of the parents being lazy and not working. But because WE have ALL been laid off, lost our jobs and pushing every single penny together to just make it. we're not only facing a serious health crisis, but now a financial crisis. Lives are being changed and we're broken right now. We need to be in this TOGETHER!!

Please, have compassion. Please, give us the pfd. Give us hope in humanity. This world needs every single person to drop the selfishness and start putting in some helping hands.

Please, remember us.

-Ashley Neace (a single mother & business owner)

**To:** House Finance  
**Subject:** Additional PFD Payment for COVID 19 Crisis

All,

Please approve and send the additional PFD payment to all eligible Alaskans as soon as possible. Everyone has been impacted by this pandemic and the 1st of the month is fast approaching. While this in no way will solve the financial losses it will go far to help Alaskan families, many who have lost their jobs or received reduced hours. A family of four could stay afloat and give you time to come up with an economic stimulus plan, find out what federal help will be given or hopefully we move out of crisis. The domino effect would be rent, mortgages, utilities payments could be met, food on the table and support for local businesses. This not just about helping the poor and/or needy, many who already have guaranteed rent, Medicaid and food subsidies.

The longer this crisis goes on without action, the more difficult recovery will be. I applaud Senator B W's rainy day take. It's pouring, Alaskans are counting on your swift appropriate action.

Regards,

Dorothy Titus
