Subject: Mail in voting

I am writing in response to HB 150. I am a resident of the state of Alaska and I want to share my thoughts on mail in voting. I do not support this action. As state on the federal numerous times over the last few weeks, mail in voting increases the likelihood of voter fraud immensely. Additionally, if people can stand in line at the post office or at the grocery store, they can stand in line at the ballot box. Protecting legitimacy of voting should be priority #1 here. Mail-in voting would be an extremely poor decision on the legislator's part.

Subject: NO Mail in ballots

Hello,  
I'm a registered voter from Lake Susitna Alaska. I'm strongly opposed to the mail in ballot idea. If I on a roadless system can get to a polling place so can others. There is way too much risk of fraud and abuse of the system to allow mail in. Those in military or overseas jobs already have a system. Do not put this new plan into place.  
Sincerely  
Susanne Christiansen
