

My name is Dr. Tim Kanady. Thank you for the opportunity to talk with you today. I have lived in Alaska for 49 years. I graduated from Dimond High School in 1977, married my wife 34 years ago, raised two children, have one granddaughter, and one more on the way. I have been a Chiropractor for 38 years, have served in numerous capacities such as Alaska State Chiropractic Society's President, VP, Secretary, and Treasurer. I was President of my Alumni association for the Palmer College of Chiropractic, voted Chiropractor of the Year by my peers, and have served on various State and Governor panels and boards. I have never had a disciplinary action or malpractice suit. I see my service on this Board as one to serve and protect the people of the State of Alaska. My entire career has consisted of treating patients the way that I would like to be treated. As an avid outdoorsman, I am an advocate for Alaska's people, culture, and future.

Thank you for your consideration.
