

RICHARD P. HARRIS

QUALIFICATIONS:

Thirty-six years of experience in Southeast Alaska managing over 360,000 acres of forest lands and over 660,000 acres of subsurface lands owned by Sealaska Corporation, the Alaska Native Corporation for Southeast Alaska. Responsible for all aspects of Sealaska's lands, timber, mineral and resource enhancement and management. Directed compliance with federal, state laws and Alaska Native Claims Settlement Act Section 7(i) Agreement; and management of Sealaska's timber lands and timber harvest including contracting, marketing, timber inventory.

Directed Sealaska's natural resource public policy formulation affecting southeast Alaska, including ANCSA Native private lands and public Tongass National Forest lands. Extensive experience leading multi-resource multi-agency research investigating relationship between timber harvest and fisheries, timber, wildlife and ecological resources.

Direct experience with social, cultural and economic issues affecting Southeast Alaska, particularly Native rural communities. Directed economic research and public opinion polling to evaluate community values leading to the formulation of strategies for sustainable economies and to guide resource management, development and protection.

Active member of numerous multi-stakeholder collaborative processes at the State, regional and local level to develop resource policy and resource solutions including Tongass Futures Roundtable and several of its collaborative working groups; and Chairman of the State of Alaska's Southeast Alaska Integrated Resource (Energy) Plan (SEIRP).

Excellent relationship with elected officials and community opinion leaders across all of Southeast Alaska.
