**Subject:** Thank you for your support of military spouses!

Dear Senator Revak,

Thank you for your support of military spouses. I appreciate your efforts to amend Senate Bill 86, regarding temporary permits and licenses, to set up a 30-day issuing period within which military spouses, who meet the qualifications, must be granted a temporary license to practice their occupation in Alaska. I strongly support this amendment that creates this 30-day period and deals specifically with teaching licenses as well.

Our military families are a special part of the Alaska. Enabling military spouses to more quickly contribute their skills and expertise to our communities is a win-win for us all.

Thank you for your advocacy on our behalf!

As a veteran and a multi decade supporter of the ASYMCA, I request you please support this measure

Sincerely,

Daniel Toomey

As a military spouse and a CPA in a dual income family, I was not faced with these issues when we came here 30 years ago. When I heard the hurdles that current spouses have to jump through I was amazed. We need to do everything we can to keep military families requesting Alaska as a duty station, which means keeping the household chief happy!

Sincerely,

Ingrid Karn
