Date: 03/27/21

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2021 LEGISLATIVE SESSION

BILL NO. HB 64

### Analysis

HB64 would allow for the creation of regional fishery development associations. The purpose of these associations would be to find and promote new fisheries that could potentially be harvested commercially. This legislation also creates a mechanism for the fishermen to elect by vote to pay an assessment tax, of which a portion may be transferred to the Department of Fish and Game for management of the fisheries being assessed and administration of the associations.

The department's overall role in the creation and management of these associations would be minimal. As written, the commissioner would be required to certify the associations and Division of Commercial Fisheries staff would support the association in drafting an annual operating plan, essentially a cooperative agreement, which describes how assessment tax revenue appropriated to the department would be used for management activities.

Certification of these associations and the creation of annual operating plans is not expected to generate a cost to the department. It is unknown how many associations will form and if their members will elect to pay the assessment tax for management of the fisheries. Therefore, the fiscal note is zero and the revenue is indeterminate.
