Dear Committee Members,

I am a 66 year resident of Fairbanks, Alaska and I am saddened by the decline in our representation in Juneau. You have forgotten that you work for the people of Alaska. Some of you have made poor decisions, no loyalty to your party or your constituents.

**YOU MUST FOLLOW THE WILL OF THE PEOPLE WHO ELECTED YOU!**

IT IS THE WILL OF THE PEOPLE THAT SJR1 PASSES. Our children and our grandchildren, whom you seem to forget, literally have no voice in all of this, are being victimized by this theft each and every year.

The CEO of the Food Bank of Alaska, recently stated " One out of 6 Alaskan Families suffers from food insecurities" These are the Alaskans that hurt the most when you steal their PFD.

**Our economy cannot survive if you continue to take our money for a short term government fix. Our economy will only benefit if the PFD money is given to its rightful owners, Alaskans. It is not any of your business how a family spends their money because it doesn't belong to you.**

I hear you say, " Well someone has to make the tough decisions", which makes me laugh because in my lifetime I have found that it is much easier to make the right decision and a lot tougher to make the wrong decision. Withholding money that rightfully belongs to Alaskans is the wrong decision.

I've also heard some of you say, "Well they just got \$1400 from the government they don't need their PFD, that my friends should have nothing to do with the Permanent Fund and should never enter your minds as a reason not to pay out the Dividend. When I heard that, I was disgusted and I say to you the Alaska government has received billions of COVID dollars. Why do you need to take the people's PFD? Works both ways folks!!

**You were elected to be the voice of the people now you must abide by the Will of the People and Pass SJR1 .... Follow the LAW!**

I am in full support of SJR1, constitutionally protecting an Alaskan's right to receive our share of the mineral rights of the State of Alaska. It's amazing to me how many politicians live in a bubble. Many seem unaware of the suffering out here in the state, and just arrogant enough to think it would be better to ignore the law and spend the money themselves than allowing individual Alaskans to spend it. Why won't you allow Alaskans to make their own decisions and not waste it on a government bureaucracy? Many have lost their elected office over this issue, and many families have been hurt by not receiving a Permanent Fund check. Let's resolve this once and for all.

Please vote in favor of SJR1!

As leaders you are to follow the law not break or modify it as you see fit! Follow the Will of the People!!! Yes we are in debt for we have no work and too many social programs on the books! So figure out like we all do who are living in Reality- We cut our expenses and exit on the basics! Do not expect to collect a tax for food/shelter/Enstar and MEA comes first! Enstar or MEA do not care and they do not accept excuses!

We are going to implode if you do not figure out a fiscal plan and force people accountable (the old adage is nothing in life is free). Do not touch the PFD!!!!

Hello,

I am an Alaskan resident since 1986 and we ask that you pass SJR1 to ensure the PFD remains as intended by Governor Jay Hammond. The full amount needs to be distributed as before. Our State's economy is better served by the consumer spending and investment.

Alaska State Legislature Senate Judiciary Committee,

I am writing in support of SJR1 and apposed to all other Bills being put forward that steal the PFD.

I ask that you vote to pass this through committee and allow the Senate to Vote.

I would like to thank those of you who are fighting hard to protect Alaskans Constitutional Rights, Those of you who are standing strong for Freedom and have tried to increase communications, have been an inspiration to watch and I'm praying that God gives you strength to continue.

I should also note, that I am a private citizen and in no way benefit from government overspending or special interest group funding.....I'm pretty sure the people who want to steal the PFD cant say the same...

Dear Members of the Judiciary and Finance Committees,

We ask to seriously consider passage of SJR1 that is before you to protect the original PFD in the AK. Constitution with this resolution, SJR1. It is a must to address the two important topics before you, the PFD with SJR1 and reduction of Alaskan's government. Until these two are resolved this legislative season, Alaska cannot move forward. Please take responsibility to accomplish the tasks you were elected for. Thank you for opportunity to comment. Sincerely,

I am a resident Alaskan and have seen how the legislature has been. Our Politicians want to take The PFD from the people for other uses unbeknownst to the residents of Alaska. On the news one day after they took 1000\$ PFD monies from all the people one legislator was asked what he was going to give and his reply was "I can't afford a dime" that was really big of him! Why do some legislators think they can do what they want and don't go by the LAWS? If every day people did this they would be locked up. Why do they think they can do whatever they want! This just goes to show you THE SWAMP comes all the way up to ALASKA!

I want the full PFD reinstated.

I am a taxpayer!!! I am very concerned about what's going on in Alaska's government it doesn't seem right that you're taking from needy people, especially with Covid, things are not looking any better for our future right now. I am for the full PFD the Peoples right in Alaska! You were hired to work for the people...get the full PFD for the people figure it out, it's your job. But then when you hear that Alaska State Senate and the State House...the legislative majority then guaranteed automatic pay increases for State of Alaska employees, increased the state budget by \$300 million, and cut the Permanent Fund dividend by \$1,300 last Spring, and another cut of \$2,000 in October. Who put 40,000+ people out of work in Alaska, you did because of Covid, this is a bad time for Alaskans and a bad time for you to take away our money. Why are you disregarding the law that directs you to transfer a PFD of a statutory calculated amount to Alaskans? I really would like to know.

When the PFD fund was set up the intent was to give all Alaskans a share in the wealth. Alaskans own the Fund as shareholders in the Owner State. It belongs to the People, now and future Alaskans, not the government. It was not to give reckless politicians a stash to rob when they can't discipline themselves enough to balance the budget. Nor was it to give state employees raises or bonuses or anything of the like, and that's why I am concerned by what our Alaskan government is doing. My vote is for the for the PFD, for the people, the Alaskan people the ones that you work for that pay your salary!

I will not be voting or supporting anyone that does not work for reinstating our full PFD in the future, that's one thing you can count on.

Sincerely dissatisfied with my Alaskan government,

Greetings lawmakers,

As Alaskans we know how hardy you need to be as a person to live here. It ain't no joke! But we do it because we love Alaska and no challenge is too big. One of the benefits of living here knowing that as an Alaskan we are all owners of Alaskas' natural wealth as set forth in the Alaska Permanent Fund Dividend. For years this fund has helped Alaskan families with some of the struggles of living here, just as it was created to do. In recent years, lawmakers have continuously spent funds irresponsibly and have tapped into the wealth that should have gone to the people of Alaska. This is NOT what the PFD is for, and they know it.

The PFD must be written into Alaskas' constitution so it will be protected from future spending by lawmakers who care little about frugal spending. I urge you today, to do the right thing and safeguard our PFD. You owe it to your constituents and all Alaskans.

Thank you for your time,

Dollynda Phelps

RE: SJR1

I am a born and raised Alaskan. My father was an original homesteader in the Matanuska Susitna Valley. My grandfather was shocked when he came to Alaska from Colorado and was unable to keep his own oil/mineral rights on his property. Our family today still owns mineral rights in Colorado. The Permanent Fund helped make up for this and was an incredible act to give back to Alaskans. I have children and grandchildren here (4 generations now) and they deserve to keep the dividend as its original intent-for the people.

**Please pass SJR1 and protect the dividend for the people.**

Please stop using it as a government savings accounts and use innovation/creative minds to balance the budget. The PFD does so much to support small businesses in Alaska, fund education savings for our Alaska kids, help pay high medical costs (Alaska ranks as some of the highest medical costs in the nation) and more. I know for years our family has used the funds to purchase studded tires for the harsh Alaskan winters. The rest helps towards high fuel costs and food security for the winter. Our elderly population (on a fixed income) relies each year on the dividend to pay for high cost of living in Alaska. A dear elderly friend used her last PFD to help pay for her hearing aids.

People are leaving Alaska faster than they are coming in. Restoring the dividend to its **original calculation** will help more people stay in Alaska and help our economy thrive. Dunleavy promised a full PFD. There has never been a better time to make this happen for Alaskans.

Thank you for your time and consideration.

Sincerely,  
*Lisa Short*

Good morning ladies and gentlemen,

I am writing in hopes that you will seriously consider and pass this resolution to protect our full and statutory PFD. The good people of Alaska have endured quite a bit over the last several years by way of our Legislature taking large portions of our PFD to run state government, while the majority of us protest and disagree with your actions.

It is time to take serious action to protect what was and always has been meant for the Alaska residents. The state has always received it's share for government, and we the people believe that our government has grown way to large by way of the peoples PFD funding it. I would wager that the households of these Alaska residents have all adjusted their budgets to meet their individual financial needs, meaning; WE LIVE WITHIN OUR MEANS. That is the only way it works out here in the real world.

May we recommend our Legislature do the same thing? Tighten the states financial belt and start cutting the "wants" vs. "needs". We are tired. Please consider doing what is right and true by your constituents and payout a full PFD. I have been shouting to the Heavens for several years now; give us our full PFD and watch US FIX OUR ECONOMY by injecting it right into the arm of our local communities.

I will do my best to call in to testify on Friday, but if I can make one suggestion? Please listen to, and take into account ALL OF THE TESTIMONY you hear at it's hearing on the 9<sup>th</sup> as well as the emails that I am sure you are receiving. We are also very tired of being ignored.

I wish all of you the strength, courage and resolve to do the right thing by your people. The Alaskan people who elected you and look to you to represent them and their interests in this beautiful state.

Sincerely,

Please consider this constituent input for a "yes" vote. The PFD payout belongs to the people of the state and, if you accept well published economic analysis presented thus far, the return on the payout is, by far, the best investment you can make in our state. This vote does not preclude the need to create other sources of revenue to insure the viability of our state economy.
