FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

BILL NO. HB66

Analysis

This legislation modifies exiting statute regarding voting, voter qualifications, and voter registration as well as poll watchers, absentee and question ballots, and election worker compensation.

The fiscal impact of this legislation cannot be determined because the proposed processes need to be fully evaluated in conjunction with the division's current procedures to determine what is additional and what is duplicative. There will be costs associated with return postage for by-mail ballots (using a two year election cycle average of returned by-mail ballots for 2018 and 2020 of 84,418), estimated \$66.6; reprinting of absentee by-mail, absentee in-person, special needs and questioned ballot envelopes estimated \$138.6; electronic signature system; voter registration and election management system programming enhancements for permanent absentee voters and other; hiring temporary staff to manage the proposed ballot cure process, and; automated interactive voice response system for voters to check status of their absentee ballot (the telephonic polling place locator implemented in 2013 was \$57.3).
