FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

BILL NO. HB 162

Analysis

The permit type described in this legislation is already available through the Division of Commercial Fisheries in another format. Permit applications will receive the same level of scrutiny and review that is already conducted for existing propagative permits, because of this increased cost to the department is not expected. The legislation also proposes a \$100 application fee. It is unknown how many applications the department will receive for this new permit type but is expected to be few. Therefore, the change in revenue is indeterminate.
